Ms. Anne L. Weismann
Chief FOIA Counsel
Citizens for Responsibility and Ethics in Washington
(CREW)
455 Massachusetts Avenue, NW, 6th Floor
Washington, DC 20001-2208

Dear Ms. Weismann:

This responds to your Freedom of Information Act (FOIA)/Privacy Act request dated July 23, 2020 and received by the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) on the same day, in which you requested records regarding documents and communications from June 2, 2020 to the present that explain or pertain to:

1. The decision to deploy federal law enforcement agents, officers, or other personnel in response to the ongoing protests over racial justice in Portland, Oregon and Chicago, Illinois;
2. Any decisions or plans to deploy federal law enforcement agents, officers, or other personnel in response to the ongoing protests over racial justice in Albuquerque, New Mexico; Baltimore, Maryland; Detroit, Michigan; Kansas City, Missouri; New York City; Oakland, California; and Philadelphia, Pennsylvania;
3. Any policies to which law enforcement officers under the auspices of ATF are bound governing the treatment of protesters in the above-mentioned cities.

Ms. Anne L. Weismann

This is a rolling production and this is **Release FIVE**. In response to your request, we have reviewed a total of 2,170 pages for responsiveness, of those 2,170 pages, 177 pages were found to be responsive. After reviewing those 177 pages, 23 pages were duplicative, 23 pages have been referred in full, and 138 pages are either being released to you in full, in part, or withheld in full. Of those 138 pages, we are releasing 34 pages in full, 93 pages in part, and withholding 11 pages in full. Each page of this production indicates whether it is being released in full (RIF), released in part (RIP), or withheld in full (WIF). Individual redactions identify the exemption pursuant to which the redacted material has been withheld.

We are withholding deliberative materials in the records you requested under FOIA Exemption (b)(5). FOIA Exemption 5 permits the withholding of “inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency.” FOIA Exemption 5 protects advice, opinions, recommendations, predecisional discussion, and evaluative remarks that are part of the government decision-making process. Release of such predecisional advisory communications would harm the quality of agency decision-making and the policy of encouraging frank, open discussion among agency personnel before making a decision (5 U.S.C. §552 (b)(5)).

The most commonly invoked privilege within Exemption 5 is the deliberative process privilege. The general purposes of this privilege are to prevent injury to the quality of agency decisions and to protect government agencies’ decision-making processes. The deliberative process privilege allows agencies to freely explore alternative avenues of action and to engage in internal debates without fear of public scrutiny (Missouri ex rel. Shorr v. United States Army Corps of Engineers, 147 F.3d 708, 710 (8th Cir. 1998)). Exemption 5 protects not merely documents, but also the integrity of the deliberative process itself, where the exposure of that process could result in harm.

We are withholding third party information, including the names of ATF employees, under FOIA Exemption (b)(6). To disclose personal information about a living individual to a member of the public, we need the written consent from the persons whose information you requested. Without written consent, proof of death, or an overriding public interest, personal information is exempt from disclosure under the FOIA. The FOIA does not require agencies to disclose information that would be a clearly unwarranted invasion of personal privacy (5 U.S.C. § 552(b)(6)).

At this time, we are withholding information regarding open and ongoing investigative matters under Exemption (b)(7)(A). Exemption (b)(7)(A) authorizes us to withhold investigatory records or information compiled for law enforcement purposes, the release of which could reasonably be expected to interfere with enforcement proceedings.

Ms. Anne L. Weismann

We are withholding third party information, for whom you did not provide a waiver for, under Exemption (b)(7)(C). Exemption (b)(7)(C) permits the withholding of information compiled for law enforcement purposes that “could reasonably be expected to constitute an unwarranted invasion of personal privacy.” The public interest in disclosure is limited to the FOIA’s core purpose of shedding light on an agency’s performance of its statutory duties. The public interest under Exemption (b)(7)(C) must be both significant and compelling in order to overcome the legitimate personal privacy interests of a third party. In this matter, the disclosure would not serve the core purpose of the FOIA, but rather, would serve as an unwarranted invasion of personal privacy (5 U.S.C. § 552(b)(7)(C)).

We are withholding the specific law enforcement codes, techniques, and procedures used in our investigation pursuant to Exemption (b)(7)(E) of the FOIA. Exemption (b)(7)(E) exempts from mandatory disclosure records or information compiled for law enforcement purposes when production of such records or information “would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law” (5 U.S.C. § 552(b)(7)(E)). The information withheld reveals various law enforcement file numbers and codes, which are primarily used to store and retrieve law enforcement information. Disclosure of such numbers and codes could allow individuals outside the agency to circumvent agency functions and gain access to sensitive investigative information. The information withheld also reveals specific law enforcement procedures and techniques used in this investigation. Disclosure of such information could enable individuals outside of the agency to circumvent agency functions and gain access to sensitive investigative information.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. *See* 5 U.S.C. § 552(c). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

You may contact our FOIA Public Liaisons, Darryl Webb or Zina Kornegay, at (202) 648-7390, for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, Room 2510, 8601 Adelphi Road, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Ms. Anne L. Weismann

If you are not satisfied with my response to this request, you may administratively appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, Suite 11050, 1425 New York Avenue, NW, Washington, DC 20530-0001, or you may submit an appeal through OIP's FOIAonline portal by creating an account on the following web site: <https://www.foiaonline.gov/foiaonline/action/public/home>. Your appeal must be postmarked or electronically transmitted within 90 days of the date of my response to your request. If you submit your appeal by mail, both the letter and the envelope should be clearly marked "Freedom of Information Act Appeal."

Sincerely,

A handwritten signature in black ink, appearing to read "A. Siple".

- During a night of civil disturbance across Des Moines, Iowa on June 1, 2020, a passerby discovered and reported a **fire** shortly before 1:15 a.m. at the Git N Go gas station and convenience store, 865 42nd Street in Des Moines. Through investigation and video surveillance this fire was deemed an **arson**. The investigation is being worked by Des Moines Field Office in conjunction with Des Moines PD. At this time all leads have been exhausted and ATF will be issuing a reward for information.

Louisville Field Division

- On 5/30/20, at approximately 0001 hours, the LFD, LMPD, and LMAB responded to the Louisville Metro Government building at 444 S 5th Street, Louisville, KY for a report that **protestors had set fire to the structure**. All agencies had to evacuate scene shortly after the fire was extinguished due to protestors. ATF did not respond at this time, and a very limited scene examination was conducted by the LMAB. Investigation continues by ATF CFI.

New Orleans Field Division

- On 6/5/20 an emotionally disturbed individual drove his vehicle through the front doors of the Target Store in Hammond, LA. He had thrown packages out of his vehicle at two other locations nearby, and had thrown packages in the Target parking lot, as well as inside once he crashed in the doors. (b)(7)(E)
(b)(7)(E) EDC examined the items left by the suspect at the different locations. There were no alerts, and **no explosives discovered**. Local Police, LSP, other agencies, and FBI responded.

- (b)(7)(A)
- On May 29, 2020, at approx. 12:30 pm, US Army Corps of Engineer staff located damage to lower spillway of the Lewisville Dam. Lewisville Police, Fire and Lead Ranger were notified. The investigation revealed a possible **homemade explosive device** was detonated causing a 2.5 foot wide x 1 inch deep circle into the concrete with approximately a 100 foot long fuse. Debris was located 50 feet from the blast site. Fire Marshal notified FBI as well.

Denver Field Division

- ATF CFI and TFO responded to a **structure fire at a vacant restaurant** at 321E Colfax Ave (a block away from the Capitol). The fire was located on an exterior patio on the north side of the building. ATF CFI collected two fire debris samples and submitted to Denver PD lab due to overload of fire cases at ATF lab. No cameras in area facing in the right direction to capture anything. No incendiary devices found. No injuries or fatalities reported.

Houston Field Division

- Black Sheep Arms **FFL received a suspicious phone call** from an individual asking about their inventory. The FFL informed the caller that they primarily do cerakoting and do not carry a large inventory of firearms. This call prompted the FFL to notify ATF. IRS (b)(6), (b)(7)(C) identified the caller and shared with RAC (b)(6), (b)(7)(C) the subject's information. Also, the caller had an outstanding state probation violation warrant. Austin PD has arrested the individual and the subject was interviewed by Austin FO TFO. The subject denies planning an FFL burglary.
- ATF CES will stage with Austin PD Bomb Squad to assist with any explosives or Molotov incidents.
- ATF will be present at Austin PD Comms/Command Center
- ATF SA will be present at FBI Command Center

Tim,

Thanks for discussing this plan with me. It is understood that there are concerns about the PC of the warrant which you guys will address, as well as the necessity of the operation. Also, the warrant still needs to be signed. That aside, the op plan looks good. I made some minor changes but did not change the concept of operation. (b)(7)(E)

(b)(7)(E) but you can change as you see fit. With COVID-19 going on as well as civil unrest, as stated in the op plan you will take precautions to deal with COVID-19 and as we discussed you will take precautions to make sure that everybody is aware of possible civil unrest when police activity is going on (this is part of the discussion we had about the necessity of this operation). Just a few things:

-I changed the hospital to PG Trauma. Please contact an ATF Medic to make sure this is the best hospital for this location. I copied (b)(6), (b)(7)(C) on this email who is familiar with that area

(b)(7)(E)

-please make sure USSS is aware of our tactics

Please let me know your availability for Friday. TFO (b)(6), (b)(7)(C) suggested Troop 6 as staging area (which is a great idea). If we can all be there at 1730 hours and be ready to respond to Wilmington if needed that would be great. I will be at the Command Post in the city and will keep you posted throughout the evening.

I realize TFOs will most likely be deployed by their respective agencies and will be unavailable to solely assist Wilmington if something should occur.

Hello,

I'm going to pull the two Wilmington agents back from Baltimore in preparation for the Wilmington protest. Reach out to Wilmington PD and let them know that our investigative resources will be available. Chief Tracey is presently putting together the Wilmington plan so, reach out and find out when & where they're doing the briefing (the Acting RAC needs to attend that briefing). Identify someone to be at the Command Post at Wilmington PD.

I'm still on the DC civil unrest detail but, I will push you all whatever info I receive regarding the planned protest.

Hello Sir,

I was speaking with our Intelligence Group Supervisor and he advised there was a rather large protest planned for Frederick County this coming Friday.

I wanted to respectfully offer you our services. We can have a group of agents deploy as part of an Investigative Response team. We can also provide an Explosives Detection K-9 Team and an Explosives Enforcement Officer to help with protective sweeps. We are providing similar teams to Baltimore and DC.

Please let me know if we can be of assistance and have a great rest of the day.

Good Morning Tim

Yes, we do have a dam fine county, the "land of pleasant living" in policing. Stop by anytime I always have coffee and time to chat. Things are going well, except this governor needs to let things start back up and get the economy lifeblood pumping. Businesses and people are hurting. Stop in any time. Thanks for reaching out.

Hello Sir,

I was speaking with our Intelligence Group Supervisor and he advised there was a rather large protest planned for Frederick County this coming Friday.

I wanted to respectfully offer you our services. We can have a group of agents deploy as part of an Investigative Response team. We can also provide an Explosives Detection K-9 Team and an Explosives Enforcement Officer to help with protective sweeps. We are providing similar teams to Baltimore and DC.

Please let me know if we can be of assistance and have a great rest of the day.

Good Morning Tim

Yes, we do have a dam fine county, the "land of pleasant living" in policing. Stop by anytime I always have coffee and time to chat. Things are going well, except this governor needs to let things start back up and get the economy lifeblood pumping. Businesses and people are hurting. Stop in any time. Thanks for reaching out.

Good Morning Sir!

Just wanted to check in and see how things are going. Frederick County is my favorite place to stop on my way and to and from work in Baltimore. You have a great county!

I hope everyone is safe and healthy and please let me know if I can be of assistance.

Take care!

Hello Sir!

I just wanted to say it was great meeting you last Friday and thanks for your time.

I will reach out to our Firearms Operations Division to see when it would be a good time to visit the Correlation Center and advise. Also, the USAO/VIP Range Day is set for June 12 at the Harford County Sheriff's Office Range. I will provide more details once we get closer to the date.

Subject: Clear Ballistic Shield Guidance
[SOD - Memo - Guidance - Clear Ballistic Shield - 20-0529.pdf](#)

To all,

Please see the below email that I received from HQ and please read the attached memo when you get a chance. Some of you have seen the clear ballistic shields that are at the TOO shop. The attached memo explains their intended use. I am still waiting for guidance from HQ on when and how training will resume. Once training resumes we will take some time during the tactical training day to work with the clear shield and then it will be issued to your group. Also, you will see below that HQ is working on replacing the current bunkers our groups have which many of you have asked about. As stated below, more to follow on that.

On another note, I know many of you have been busy over the past two weeks with the civil unrest going on. When you get some time to catch up, please check your gear and make sure it is back to how you would usually prep it...radio charged, mags loaded, med kit ready, etc. They were long days for most of you so please make sure your gear as well as you are all good. As we all start to get back to a new normal, please keep in mind COVID as well as the civil unrest when planning operations. They all tie in together with the goal of keeping everybody safe during any operation. I am not really a pep talk guy, but after having much of DC give us the finger and some thumbs down this week as we drove through DC, as I imagine many of you got as well, yesterday we got a thumbs up, a crowd asked genuinely how we were doing, and a group thanked us for our service. Basically, the public may not always like us or even want us, but they need us and some understand that.

Stay safe and as always if you need anything let me know.

Subject: Clear Ballistic Shield Guidance
From: DTA Project Officer

All- Please review this guidance document as it relates to the clear ballistic shields. Cliff notes-this shield is only for deployments in and around vehicles. It is not designed to be used during traditional building clearing and room movement. I am currently in the process of identifying a standard ballistic shield to replace our antiquated inventory of "body bunkers", most which were purchased pre-1994. More to follow on that. Lastly, SOD-TTRD (Tactical Training Research and Development) branch is also diligently working on procuring protective bags for the clear ballistic shield. Until the bags arrive, take care to protect the clear shields from scratches and abrasions, for obvious reasons.

MEMORANDUM TO: All Division Tactical Advisors
All Firearms Instructor Coordinators

(b)(6), (b)(7)(C)

FROM: Chief
Special Operations Division

29-May-20

SUBJECT: Operational Guidance for the (b)(7)(E) Clear Ballistic Shield

The purpose of this memorandum is to offer operational guidance and initial instruction on the deployment of the recently issued (b)(7)(E) Shield. **This shield is not meant to replace the large body bunker "traditional" ballistic shields currently in use.** (b)(7)(E)

Background

During FY 2018/19 the Operational Equipment Branch (OEB) conducted testing and evaluations of ballistic shields to replace and upgrade the Bureau's current inventory.ⁱ Based upon feedback from the field, the ATF National Academy, and Division Tactical Advisors (DTAs), OEB proposed a two-phase replacement plan. Phase 1 was executed and resulted in the selection and delivery of the (b)(7)(E) clear ballistic shields in the fall of 2019. Phase II of the replacement plan will result in the total replacement of the body bunker style shields that were procured mostly before 1993.

OPERATIONAL GUIDANCE

(b)(7)(E)

(b)(7)(E) The pictures below are not meant to be all encompassing nor limiting. Rather, they are options that should be considered during the planning phase of any operation. Deployment of the shield is situationally dependent. Consideration of the number of subjects, location(s) in the vehicle of the subject(s), type of vehicle, and window tinting, should dictate which agent would deploy with the shield. Training with the shield during scenario based tactical training sessions should be conducted prior to operational use.

Good morning Boss,

First, attached is the list that you requested of my projects (completed, in-progress and planned). Some of the ones marked as in progress will be finished soon while others will take much longer depending on their scope. Also, while I am working on many articles for Inside ATF (and other possible outlets), they will not all be published at the same time. I told PGA/Inside ATF that they would always have at least one article from SOD.

In addition to the projects listed on the attached chart as "in progress", this week I will also be working on another online FEMA PIO course.

Also attached is the updated version of our SRT Regional Map. I changed the branch name from CIMB to TMB and updated SRT-5 from Miami to Jacksonville. Is it alright to use this for our SRT page on both our Intranet and external (atf.gov) site? Just let me know so I can tell the Digital Media Branch.

My visit to Sterling was very helpful. I spent all day Thursday with TOB and DFB personnel. (b)(6), (b)(7)(C) and (b)(6), (b)(7)(C) were great and very helpful and their team members were very helpful as well. I took tons of notes and have follow-up calls planned with a few of the team members as I start to prepare articles about both branches. At the end of the day I met with (b)(6), (b)(7)(C) and we went over the entire new use of force class for the citizens academy. I believe we have it finalized. We are both looking forward to teaching it to our citizens academy classes – I think it will greatly enhance their understanding of the realities of police use of force.

That's all I have for now. Of course, if you have any questions or need anything from me, just let me know. Thanks!

NRT Activation #: NRT 20-11 / (HQ-858) – St. Paul, MN - Executive Notification

On Monday, May 25, 2020, George Floyd died while in custody of the Minneapolis Police Department. On Wednesday, May 27, 2020 rioting began in the city of Minneapolis and continued throughout the night with numerous commercial structures sustaining fire damages. On Thursday, May 28, 2020 at approximately 2:00 PM rioting activity spread to the Midway area of Saint Paul. The rioting continued throughout the night causing fire damage to approximately 33 commercial structures. On Friday, May 29, 2020 members from the NRT responded to the St. Paul Field Division to assess the fire damages and ongoing rioting activity. Based on the volume of fire scenes and investigative leads the St. Paul Field Division requested the assistance of the National Response Team. The National Response Team was approved this morning and the full team will arrive on scene today and tomorrow. The National Response Team and St. Paul Field Division will be working jointly with the St. Paul City Police and Fire Departments.

The initial briefing is scheduled for 8:00 AM on June 2, 2020 at St. Paul Field Division Off-Site, (b)(7)(E)
(b)(7)(E)

This is the 11th NRT callout for this fiscal year and 858th callout since the inception of the program in 1978.

NRT Activation: NRT 20-12 (HQ-859) Minneapolis, MN - Executive Notification

On Monday, May 25, 2020, George Floyd died while in custody of the Minneapolis Police Department. On Wednesday, May 27, 2020 rioting began in the city of Minneapolis and continued throughout the night with numerous commercial structures sustaining fire damages. The rioting in Minneapolis has caused fire damage to over 100 commercial structures. On Thursday, May 28, 2020, rioting activity spread to the adjoining city of St. Paul, setting fire to another 33 businesses. On Friday, May 29, 2020 members from the NRT responded to the St. Paul Field Division to assess the fire damages and ongoing rioting activity. Based on the volume of fire scenes and investigative leads the St. Paul Field Division requested the assistance of the National Response Team to investigate 33 business fires in St. Paul. The response was approved on May 31, 2020 and the team activated to St. Paul. Subsequently, the FBI, US Postal Inspection Service, Minneapolis Police Department, and Minneapolis Fire Department requested that the NRT also assist in investigating a variety of business fire scenes in the adjoining city of Minneapolis. Due to the volume of fires (over 100) and expanded scope of investigation, an additional NRT response to Minneapolis was approved this afternoon. The second response is being coordinated and run concurrently with the original NRT response to Saint Paul. Additional members from NCETR will supplement existing NRT personnel on the ground in Minneapolis and St. Paul. The NRT and St. Paul Field Division will be working jointly with the FBI, U.S.

Postal Inspection Service, and the Minneapolis Police and Fire Departments.

The initial briefing is scheduled for 11:00 AM on June 3, 2020 at the Minneapolis Fire Department, 38th & Snelling, Minneapolis, MN.

This is the 12th NRT callout for this fiscal year and 859th callout since the inception of the program in 1978.

AWARENESS BULLETIN

The National Explosives Task Force (NETF) coordinates rapid integration of explosives expertise with Intelligence and Law Enforcement information to support operational activities. Products are peer-reviewed by explosives experts from participating agencies.

HAZARDOUS DEVICES USED IN RECENT NATIONWIDE DEMONSTRATIONS

June 3, 2020

(U//LES) During the past week, a variety of incendiary and explosive devices were used against civilian and law enforcement targets in civil unrest demonstrations. This document serves to enhance first responder and bomb technician awareness by highlighting current examples of these tactics and providing guidance for safely responding to potentially hazardous devices.

(U) Current Device Examples

(U//LES) The majority of law enforcement and open source reporting indicates improvised incendiary devices (IIDs) and commercial fireworks are the two most commonly used devices by current civil unrest participants. Both tactics can cause serious injury and death, and significant damage to infrastructure and automobiles.

(U) Response Guidance

(U//LES) The danger posed to law enforcement officers and the general public from both IIDs and fireworks is substantial. To ensure the highest degree of safety, the following guidance is provided for first responders.

1. (U//LES) Do not handle any potential device unless it presents a life threatening situation.
2. (U//LES) If an IID is encountered which has not been deployed as designed, contact the bomb squad, secure the area, and wait for those with training to further assess and process the device.
3. (U//LES) For pyrotechnics/fireworks, secure the area and request assistance from trained personnel. Do not handle the device as there is potential for injury. **Do not expose the device to water.**

PUBLIC DISSEMINATION PROHIBITED

4. (U//LES) All evidence collection should be done in accordance with local procedures, or contact the FBI to receive guidance on collection in accordance with established FBI Laboratory procedures.

(U//LES) The recovered items have not been formally examined by a laboratory and final results may differ from the raw information contained in this Awareness Bulletin.

(U//LES) Information in this Awareness Bulletin was obtained from law enforcement personnel reporting. Subject: Federal Arson Charges during times of Civil Unrest
[Shader Complaint.pdf](#)
[Mattis and Rahman Complaint.pdf](#)
[Belflower v US.rtf](#)

Hi everyone,

In continuation of the conversation regarding what arson charges may be considered during these times of civil unrest, (b)(5)

(b)(5)

(b)(5)

Some of the below is repeat and plagiarized from my fellow CFI's and some is based on additional legal research by our Division Counsel (see bottom part of email chain below signature line and attached documents). (b)(5)

(b)(5)

Please feel free to use (or not use!) as you wish. Additionally, if you see a glaring error in my synopsis below, please feel free to keep it to yourself! No...please share with the group.

(b)(5)

I am definitely NOT an attorney, but this is from my experience thus far working in A&E groups and as a CFI, as well as talking to other CFI's within our ATF Community, and after speaking with Brendan Day from the US Attorney's Office in Trenton. This is certainly a new situation for everyone, so much of this below information is new to our ATF CFI community.

It is always important to advise the USAO of the likely requirement to obtain an origin and cause report since many Assistant US Attorneys and other federal law enforcement partners, are not familiar with charging arson cases. Additionally, educating them on the scientific method investigation process, NFPA 1033 and 921, fire cause and classifications, and the need to attempt to identify an ignition source and a first fuel, as well as how those two came together (even with clear video depicting the arson), is paramount.

The charge of **18 USC 844(i)** (Destroys or Damages any Real Property by means of Fire) requires an interstate nexus to charge it...businesses, schools, some houses of worship, banks, etc. It would be difficult to charge this on a vehicle or residential fire, except with some mitigating circumstances that CFI's are aware of. For "normal" residential fires (no business, no clear fraud charges at the outset, etc.), this charge would likely be difficult to prove and therefore, less likely to charge at the USAO level. Even though a police vehicle (for example) may have been partially paid for by government funds, many district court judges may find it (and have found it) to be a huge stretch to say that a particular municipal vehicle or residence is involved in Interstate Nexus, depending on the jurisdiction. The US Attorney's Office has argued that other district courts have said that police departments talk to other law enforcement agencies, speak to sources outside the state, and occasionally travel outside the state, and therefore fires to police vehicles may qualify for this charge. As a result, they HAVE charged this in New Jersey for the recent police vehicle fires in Trenton during this civil unrest, citing these afore-mentioned case laws. There have been at least 3 police vehicle fires on record where this charge has been used prior to New Jersey. Two of them have been in New York over the past couple of weeks and both involved Molotov cocktails. The other one was from Georgia in 1997 and involved a bomb placed underneath a police vehicle. Therefore, none of them were strictly "fire" incidents, but incorporated an explosive-related device.

(b)(5)

The charge of **18 USC 844(f)** (Damages or Destroys Government Owned Property by Fire) requires federal funding to have been used in the purchase of the police vehicles. The AUSA found two cases on this at the federal appellate level, and they are split on whether or not this charge can be used. The 10th Circuit says that if the police department receives ANY federal funding, then a police vehicle would qualify as a "federally funded" police vehicle and therefore qualifies. The 1st Circuit said that any federal funds received by the department would have to be specifically earmarked to purchase police vehicles, and therefore this charge would likely not be supported (unless the federal funds were specifically designated for this purpose). Similarly, the NJ USAO DID charge this as well for the Trenton police vehicle fires. (b)(5)

(b)(5)

Finally, as another CFI in our community has stated, **18 USC 844(h)** (Using fire or explosion to cause any felony) MAY qualify if the underlying charge used is **18 USC 231(a)(3)**. That latter charge is an old Civil Disorder charge and, according to our Division Counsel (see below), must be charged by the FBI. There has been supposed success with it in pleading out cases to civil disobedience crimes (and dropping **18 USC 844(h)**) because defendants don't want to risk the 10-year sentencing enhancement. Regarding 18 USC 844(h) (Using fire or explosion to cause any felony) and the underlying charge of 18 USC 231(a)(3) (Civil Disorder), please be aware that section 213 is an FBI charge and I am also not familiar with it being charged by ATF.

Sir,

As a follow up to the last email, copied below, and based on the meetings and discussions I have had since then, I am prepared to submit my projected resource request for your review. In addition, my prior request was based on a SEAR II event that has now been designated as an NSSE.

(b)(7)(E) - As it relates to the multiple command centers, I plan to be in place as well as insert the (b)(7)(E)

(b)(7)(E)

(b)(7)(E) This is detailed in (b)(6), (b)(7)(C) email and was an ask from the JSO and FBI at this week's explosives meeting.

(b)(7)(E) - There will be a physical site location for all PIOs and I would like to request the assistance of MH for this.

(b)(7)(E)

(b)(7)(E) (b)(6), (b)(7)(C) has provided the justification of needs in a prior email and based on the multiple discussions I have had with him regarding the assignments and the large geographical coverage areas, I support reverting back to the original request. As a side note, this number was approved for the Charlotte RNC in the planning process.

(b)(7)(E), (b)(6), (b)(7)(C) with the fire side of Hazardous Response Team/Committee in the event of a fire related event.

(b)(7)(E), (b)(6), (b)(7)(C) with the explosive side of the Hazardous Response Team/ Committee.

(b)(7)(E)

(b)(7)(E)

(b)(7)(E), (b)(6), (b)(7)(C) has been submitted as the legal POC and can work from Tampa so I see no need to have her on the ground in Jax for this event.

(? Employees) SRT Team V - number determined by SOD.

(b)(7)(E)

If this projected request is approved, I will begin working on the required paperwork for SOT and Exceeding Per Diem.

The largest issue I am dealing with at this time involves securing lodging for the employees above as well as the part time SRT members that will be traveling in.

I also have virtual meeting at 1400 today and if any additional needs are mentioned, I will update my request.

Sir,

I am writing this email to provide my personal thoughts as to what we may consider providing to the upcoming RNC event in Jacksonville scheduled from 8/24 - 8/27.

First, we will need to get there in advance of the event and stage our equipment and personnel so the anticipated travel dates will be from 8/23 & 8/28.

(b)(7)(E)

(b)(7)(E), (b)(6), (b)(7)(C)

(1 Employee) I anticipate that we will use Mary Harmon to ensure that our best interests are protected as it relates to PIO related matters. I learned in the Jacksonville Key Stakeholders meeting that the city is setting up a Joint Information Center (JIC) where they intend on having all of the PIOs so that information can be shared immediately with them. In addition, I may use her expertise if there is a matter arising from questions related to FFLs or FELs.

(b)(7)(E)

(b)(7)(E)

This may increase if JSO or the FBI can justify the need to additional resources but I have not received any as of yet.

(b)(7)(E), (b)(6), (b)(7)(C)

with the Hazardous Response Team/Committee in the event of a fire related event.

(b)(7)(E), (b)(6), (b)(7)(C)

with the explosive side of the Hazardous Response Team/ Committee.

(b)(7)(E)

(b)(7)(E)

(b)(7)(E), (b)(6), (b)(7)(C) name has been submitted as the legal POC and can work from Tampa so I see no need to have her on the ground in Jax for this event.

(? Employees) SRT Team to be determined by SOD.

(b)(7)(E)

(b)(7)(E)

Instead, I

plan on having them on standby in the event of something related to an explosive event, fire scene or shooting scene. Otherwise, they will be expected to perform in their regularly assigned capacity.

I understand that this is not our event and we are merely supporting our partner agencies.

There is a part of me that believes (b)(6), (b)(7)(C) can gain some intel experience from this and we could embed some of our specialized agents within the units of JSO. In addition, in the event something significant does occur, I want us to be in the best position for a rapid response so that we can lend our expertise.

Based on this request, I do not anticipate that anyone will be flying in for the event. I wish I could provide more detailed justification for my anticipated needs but this is all I have at this time. Knowing that this is a SEAR II event and the funds will be coming from ATFs budget, I wanted to send this to you so that we can start brainstorming our level of involvement.

ATF Use of Force Policy Revisions

U.S. Department of Justice
Bureau of Alcohol, Tobacco, Firearms and Explosives

Order

ATF O 3020.2B

SUBJECT: USE OF FORCE AND RESPONSE TO RESISTANCE

DATE: 10/9/2015
OPI RECERTIFICATION
DATE: 10/10/2020
OPI: 701200

TO: All Bureau Employees.

1. **PURPOSE.** This order governs the use of force by Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) special agents and other employees authorized to be armed in the performance of their duties (collectively, "special agents" in this order). It also describes procedures for reporting the use of force and discharge of firearms.

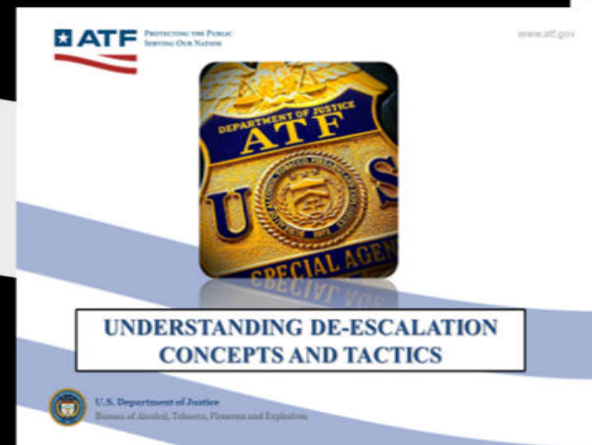

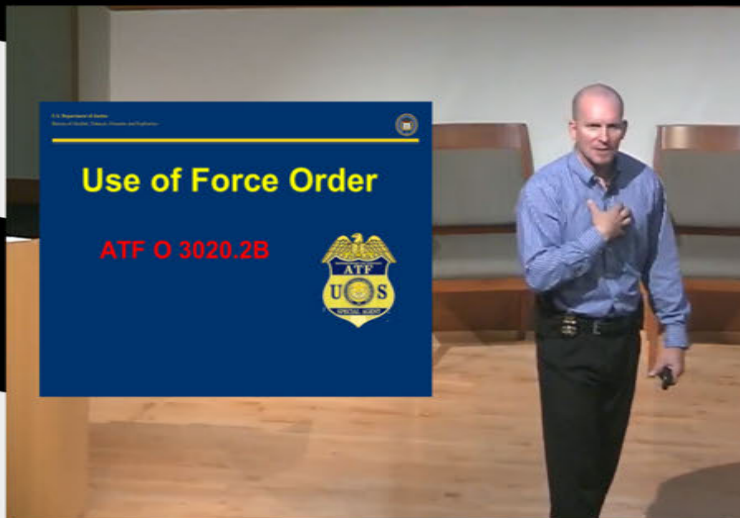

- Reducing Force
- Shooting at Moving Vehicles
- Tactics and Planning
- De-Escalation

“De-Escalation. When safety, time, circumstances, and law enforcement priorities reasonably permit it, special agents should use verbal persuasion, warnings, or other tactics (such as repositioning to increase distance or gain cover) to attempt to gain voluntary compliance from suspects. Special agents should consider whether a suspect’s lack of compliance is a deliberate attempt to resist or an inability to comply based on factors such as medical conditions, mental impairment, developmental disability, physical limitation, language barrier, drug interaction or behavioral crisis. De-escalation, however, does not replace necessary, proportional, and objectively reasonable force as an available option for special agents to safely resolve situations.”

De-Escalation Training

February 2016

2017 Tactical Training

OBJECTIVES

1. Understand and Identify the ATF Mission Objectives.
2. Understand and Identify the ATF Safety Priorities.
3. Understand and Explain the ATF Action Criteria.
4. Define de-escalation as described in ATF O 3020.2B, Use of Force and Response to Resistance.
5. Understand historical applications and prior emphasis of de-escalation in past and current ATF training curriculum.

OBJECTIVES

6. Understand the concept of de-escalation as a best practice when responding to all public contacts or incidents.
7. Identify fact patterns, environmental conditions and scenarios of clear exigency that require immediate police intervention.
8. Understand and apply the "3-S" model to derive a viable tactical solution with a minimal reliance on force.

OBJECTIVES

9. Learn and employ techniques, including the "O.P.E.N." model to communicate and promote suspect compliance.
10. Understand the integration of communications and tactics.
11. Identify hesitation concerns and the proper mindset when dealing with a non-compliant suspect.

ATF EXAMPLES

- ☐ Barricaded suspect in Bowling Green, KY.
- ☐ Shots fired and SRT member struck and injured during entry.
- ☐ TFOs encountered a subject that was alleged to have a child in their custody without permission. After assessing the situation, they used communication and tactics to secure the child and get medical attention without the use of force.
- ☐ Suspect fled after shooting ATF UC agent. The suspect was confronted by the react team and dropped his firearm. The responding agent showed great discipline and was able to take the suspect into custody without incident.

ATF EXAMPLES

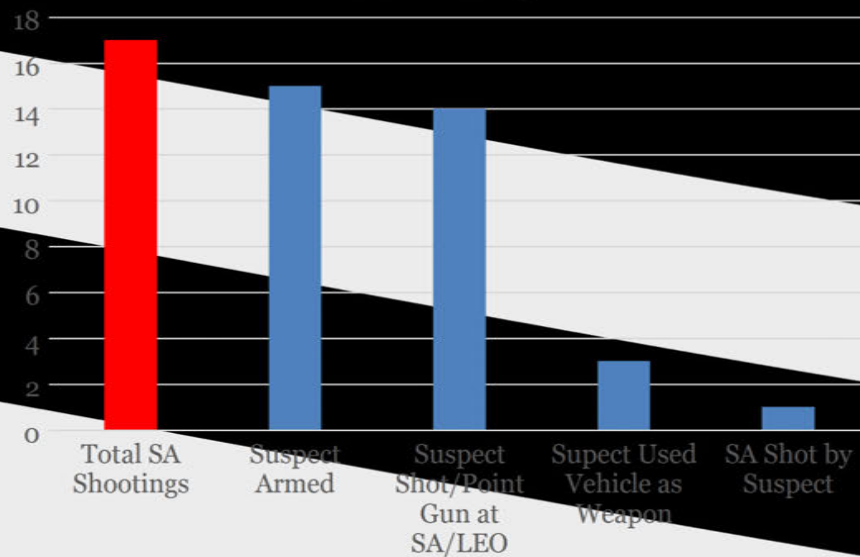

FINAL THOUGHTS

- ☐ For years, law enforcement has used these techniques. An old police adage is an "officer would rather talk someone into the backseat of the police car rather than to have to use force."
- ☐ Be that as it may, this training will clearly define these techniques and establish a foundation for the future. Their use should always be consistent with our training.
- ☐ Peer expectations will support the continued use of these professional standards.
- ☐ Agents should keep in mind that these techniques are attempts and still require an affirmative response from the suspect or person that has been contacted. It is truly a two-way street and these techniques will not always work.

- SMEs at 14 and below level
- Provide recommendations regarding policy, directives, equipment, training, supervision, and safety issues

Best Practices for Continued Success

- ATF Academy sets foundation with full spectrum UOF training of all force options utilizing realistic scenarios that are closely evaluated and hold new agents accountable for performance.
- DTAs continually reinforce good use of force decision making and introduce new techniques/technology through realistic scenarios.
- FRO reviews all reported use of force incidents to ensure compliance with ATF/DOJ policy and training bringing attention to any concerning actions, incidents or trends.
- SIRB continues to conduct reviews and make high level recommendations to directorates.
- AARC continues to review each UOF incident to evaluate performance in actual operations for policy issues, technique selection issues, training issues, and SA performance issues.

SPECIAL OPERATIONS TRAINING GUIDE

PROGRAM:	Understanding De-Escalation Concepts and Tactics
DATE:	TBD during Tactical Movement Training Quarter
SCENARIOS:	Reality-Based Training Scenarios and Micro-Scenarios
DIVISION RESPONSIBLE:	Special Operations Division
LOCATION:	Tactical Movement Training Site with location to watch PowerPoint Presentation.

INSTRUCTOR GUIDE:

1. Complete in-service training as requested by SOD.
2. Read scenario instructions.
3. Ensure familiarity with each scenario.
4. Ensure role players and equipment are available for each scenario.
5. Complete and mark the range sheet noting the date of completion for this training.

The purpose of this reality-based training is to fairly and objectively evaluate an agent's ability to safely and efficiently perform the skills and tactics that he/she has previously learned when confronted with quickly unfolding scenarios based on actual events. It is believed that he/she may experience a sympathetic nervous system activation, which could result in a loss in fine motor skills and a deterioration of mental processing thus, forcing him/her to revert back to their mental conditioning, survival mindset and tactical abilities. Research states that the more exposure an agent has to "simulated real-world" training scenarios the more confident they will become in handling those situations in the field and the less likely they will be to overreact or fail to react to a situation where subject control may be necessary.

Instructors will brief the agents as to how they will be evaluated in this exercise. Specifically, did the agent use de-escalation techniques, when feasible to do so? If so, did they use the techniques properly? It will be explained that although this is a group exercise, each individual will be evaluated separately. If de-escalation techniques were not feasible and force was necessary to control the situation, then the agents will be told that the level of force that they use

Gents,

There has been a lot of discussion surrounding the RNC today. Please read the below carefully and hit me with any questions.

I spoke with the FBI and ASAC Kamentz this morning. The Tampa FD has The Chief had a conference call with DAD Watson and SAC McCrary. Below is the plan:

The RNC is August 25-27 and is now a National Security Special Event (NSSE); therefore a federal official is responsible for the overall security. In this case, essentially, the USSS is handling the "inner perimeter" and the FBI is responsible for the "outer perimeter". The USSS has stated that they will not be needing any support from ATF. The FBI has indicated they will likely be requesting SRT assistance. They are assessing the information they have received from other agencies' tactical teams and will be making their official requests, hopefully this week.

(b)(7)(E)

The Chief wants us to consider+ having the SRT space staffed with people 24/7 during these days. I will work with SOD (Emergency Support) to work on personnel and support for this

aspect. I anticipate that the field division may likely stage some personnel here, especially if there is an incident.

Lastly, one of you MUST attend the meetings regarding the tactical aspects of this event. (b)(6), (b)(7)(C)
ASAC Kamentz already has you listed at the ATF tactical POC. Bear in mind, there may be two sets of meetings – one for the “inner perimeter” and one for the “outer perimeter”. Let’s keep each other (b)(6), (b)(7)(C) Kamentz, me) of updates.

Please utilize this email as the foundation of a “Con-Ops” (Concept of Operations) that will lay out the general plans for this endeavor. If you have any questions, please let me know.
