RE:  FOIA No. 2022-FPIS-00204

Dear Mr. Sus:

This letter is in response to your email dated February 24, 2022, addressed to the Department of Justice, in which you requested the U.S. Postal Inspection Service reconsider redactions on 20 pages of records found in U.S. Secret Service files.

We were asked by the U.S. Department of Justice to review the records again to determine whether any additional information could be released.

Based on our review of the previously processed documents, we found that we could release the 20 pages of record material with certain deletions pursuant to Title 5, United States Code, section 552(b)(6), section 552(b)(7)(C), section 552(b)(7)(E), and section 552(b)(7)(F). Exemption 6 protects information about individuals in "personnel and medical files and similar files" when the disclosure of such information "would constitute a clearly unwarranted invasion of personal privacy." Exemption 7(C) provides protection for law enforcement information the disclosure of which "could reasonably be expected to constitute an unwarranted invasion of personal privacy." Exemption 7(E) provides protection to law enforcement information that "would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law." Exemption 7(F) provides protection to "records or information compiled for law enforcement purposes [the disclosure of which] could reasonably be expected to endanger the life or physical safety of any individual."

If you have any questions regarding the handling of your request, please contact the Inspection Service FOIA Requester Service Center at (202) 268-7004 between the hours of 8:30 a.m. – 5:00 p.m. (Eastern Time) or by email at FOIA@uspis.gov.

Thank you and have a safe holiday,
Wimkin and the Million Militia March

iCOP analysts have identified a new “uncensored social media” platform named Wimkin, which is quickly becoming a new alternative to sites like Parler and Gab.¹ The founder of Wimkin, Jason Sheppard stated that the site, “was designed as a place for conservatives where they can share their opinions and what they believe to be fact without having to worry about their doing time in jail.”² The platform is found to be a hub for publicizing militia groups across the country. Moreover, iCOP analysts identified that it is also being used to promote the ‘Million Militia March’, a movement scheduled to take place in Washington, DC on January 20, 2021 aimed at preventing the Inauguration of President-Elect Joseph R. Biden.

Analysis

The website Wimkin[.]com was created on July 14, 2020, registered using GoDaddy[.]com and is hosted on Cloudflare. The site creator elected to use GoDaddy[.]com which masks registration data and purchased server space on the web infrastructure company Cloudflare which is known not to police any content hosted by its users. Wimkin also has an accompanying mobile application available through Google Play and the Apple App Store. The developer of the Wimkin platform is Jason Sheppard, who also founded the company DreamTeam Development based out of Pittsburgh, PA.³ The platform utilizes a similar user interface and design features as Facebook including a newsfeed wall, direct messaging, commenting, social group pages, etc. Image 1 is a screenshot of an account on Wimkin.

Militia Groups

In the last two months dozens of online groups were created on Wimkin as a promotional and communications platform for militia-like groups across the country. Because the platform has only been active since August 2020, the identified militia groups appear to only have between approximately 10 to 60 online members. Image 2 below is a screenshot of some of the militia groups currently active on Wimkin. Several groups are mirroring the rhetoric and

Million Militia March

The ‘Million Militia March’ is a demonstration scheduled to be held in Washington, DC on January 20, 2021 “for the purpose of preventing the treasonous and illegitimate Biden and/or Harris and any other member of the Organized Crime Organization known as the Democratic Party from entering We The People’s White House.”\(^6\) The demonstration is being publicized on the social media platform Parler, but its official page has been identified on Wimkin, where currently 352 members have signed up. The page is being run by the user whose Wimkin profile states that he is based out of Palm Springs, California and is the CEO of the private military company ‘1\(^{st}\) Regiment of the Restored American Republic (1R3).’ According to the 1R3 page, the founder and its members are not advocating for a peaceful demonstration, and are instead using rhetoric that potentially suggests violence in support of their cause. Image 3 below is a screenshot of the group’s main page on Wimkin. The image captures members’ comments on the event—one member went as far to state: “Unfortunately all peaceful options have been exhausted. This is was and we are engaging in conventional warfare which means anyone who stands against us is treated as an enemy combatant. There will be blood.” Additionally, some members have discussed the possibility of attending the ‘Million MAGA March Round III’ which is taking place January 6, 2021 at the National Mall in Washington, DC.
