Just spoke with (b)(6), (b)(7)(C). He advised that if we send the summary that we are putting together at 0700 and 1900, the EOC will submit to the SITROOM and CC LEOD Ops Cell. He believes that the disconnect with the Sit Room will be solved this way and we won't be duplicating efforts.

He also advised that he will make sure that we are attached to any ESRs that are submitted.

Give (b)(6), (b)(7)(C) a call and find out who all needs the daily summary that we are doing to ensure that the EOC, Sit Room, NOC, etc have the most up to date deployment info from USBP. The summaries that we sent to the EOC don't seem to be going anywhere past that or are being used by a synopsis. I don't have an issue sending the summary Nate has but need to make sure we have a clear distro list for who

all needs it.

We will need to have the summary report ready to twice a day reporting moving forward. A 0700 submission and a 1900 submission.
