Resource Request

Mission Type/Source:	National Guard	Type/Status	State Active Duty
Mission Description:	<p>Texas Border Operations - Military Support</p> <p>Due to the nationwide benefit of a secure international border with Mexico, the state of Texas is seeking assistance from states across the country to provide the resources necessary to assist in fulfilling the federal government's responsibility to secure the Southern Border. Texas is requesting assisting states absorb associated costs with this mission in support of the entire country. An unsecured international border with Mexico is a substantial public safety and national security threat. It is the sovereign responsibility of the federal government to secure the U.S./Mexico border. Failing that, Texas has dedicated substantial resources to deter, detect, and interdict criminal activity that impacts communities throughout the nation. Other states can assist by supporting combined statewide operations along the 1,250 miles of the Texas/Mexico border by providing essential resources and capabilities.</p>
