**Subject:** Update From NOC Director 7/2

Another busy week for the NOC team.

We enter week 22 of COVID19 CAT operations. The CAT is producing the COVID19 Placemat on Sunday and Wednesday at 2100 hrs.

The NOC continues to produce daily COVID19 Incident Reports at 1900 hrs. The staff is looking at transferring the Placemat production responsibilities to COD Reports Section. More to follow on this endeavor.

COVID19 continues to impact our daily lives. Regardless of which phase your community is in, please practice safe hygienic and social distancing measures while off duty. Since the beginning of the COVID19 outbreak, we have and will continue to stress that all personnel on site in the NOC wipe and clean your work stations and common areas. You must wear face masks while moving thru the Munro Building. Face masks are optional for those working in the NOC. Everyone should continue to practice the safeguards to prevent COVID19 spread – both at work and at home. Please continue to abide by the guidelines published by your local governments and health authorities.

The NOC is supporting the DHS Response to Protect Federal Facilities and Property mission. Extract from attached S1 memo:

*DHS' Office of Operations Coordination will continue to facilitate Department-Level information sharing, reporting, and all other supporting actions across the Components and with our DOJ/DOI partners. FPS will continue to serve as the Department's lead for the protection of Federal facilities and property and shall be supported by Operational Components and all other DHS organizations.*

The NOC is providing a daily roll up of Civil Disturbance (CD) information that is shared broadly with DHS. We ask our Federal as well as our State and Local LE partners to reach out to local FPS Offices and ensure there is good connectivity and information between your organizations and the NOC. OPS / NOC will continue staffing

the FBI SIOC now thru midnight Saturday and Sunday if required. Please support as required if asked. FPS IMC is hosting virtual connectivity between FPS, NOC, SIOC, DOI, CBP, ICE and USSS for CD information sharing. This capability is on display in the NOC and select NOC Watch Standers are connected and using the capability. Personnel on duty this weekend need to understand NOC requirements if FPS or DOI call the NOC and request Rapid Deployment Team (RDT) support. This information will be in your pass down/ turnovers.

There will be fireworks and a flyover of DC on Saturday the 4<sup>th</sup>. Monitor these events and report / share information as required.

Remember that your health is more important than worrying about coming to work. If you are sick, please don't come to work. Contact your supervisor and let supervisors and NOC staff work out the staffing solutions.

Please continue to stay safe and healthy and the same goes for your families as well.

***A special thanks to everyone who is standing watch over the Holiday weekend. Thank you for performing an important duty for DHS and our nation.***

Have a great and safe 4<sup>th</sup> of July weekend. Please see the attached Holiday messages from Secretary Wolf and Director Tomney.

**Subject:** RE: Update From NOC Director

Thanks to everyone for the great job you do supporting the DHS mission and especially the OPS /NOC Missions.

The COVID19 situation across the Country continues to ebb and flow. Some regions are improving while other areas are seeing an increase in cases.

ATF-00001491

Washington, DC and Maryland are still in phase 2 while Virginia is transitioning to phase 3 o/a Wed 1 July. DHS Management continues to review the NCR COVID19 phase situation to determine what is best for all of DHS in terms of returning to work. The overarching theme is that DHS leadership is not in a rush to have everyone return to work quickly. We will continue to leverage telework and virtual support as much as the OPTEMPO allows.

There were no changes to NOC desk staffing this past week.

The NOC is actively engaged in supporting the Civil Disturbance (CD) reporting efforts. The NOC is providing a daily roll up of CD information that is shared broadly with DHS. Director Tomney met with DOJ leadership to discuss the way forward as the USG looks at protecting Federal Facilities and Monuments. To date, no single Department or Agency has been tasked to be the overall lead for the CD response / protection mission. DHS has asked FPS to be the Department focal point for protection of aforementioned assets. OPS is assisting FPS in harnessing the DHS Component potential support to high priority locations which are being determined now. Additionally, we ask our Federal as well as our State and Local LE partners to reach out to local FPS Offices and ensure there is good connectivity and information between your organizations and the NOC. OPS / NOC will be staffing the FBI SIOC and the FPS IMC during the heightened awareness period leading up to and including the 4<sup>th</sup> of July weekend. Please support as required if asked.

Since the beginning of the COVID19 outbreak, we have and will continue to stress that all personnel on site in the NOC wipe and clean your work stations and common areas. You must wear face masks while moving thru the Munro Building. Face masks are optional for those working in the NOC. Everyone should continue to practice the safeguards to prevent COVID19 spread – both at work and at home. Please continue to abide by the guidelines published by your local governments and health authorities.

Remember that your health is more important than worrying about coming to work. If you are sick, please don't come to work. Contact your supervisor and let supervisors and NOC staff work out the staffing solutions.

Please continue to stay safe and healthy and the same goes for your families as well.

The majority of questions asked this week were asked during previous weeks so I won't resend those this week.

MEMORANDUM FOR: DISTRIBUTION (b)(6)

FROM: Chad F. Wolf  
Acting Secretary

SUBJECT: DHS Support to Protect Federal Facilities and Property

**Purpose:** The purpose of this memorandum is to provide guidance for direct support to the Federal Protective Service and our interagency partners to protect all federal facilities and property.

**Introduction:** The Department plays a key role in protecting Federal facilities and property primarily through the Federal Protective Service (FPS) and in partnership with other DHS law enforcement Components, interagency partners, and state and local partners. Recently, we have seen numerous instigators, criminals and other bad actors use peaceful protests to harm people and property, both Federal and private. For the past month, these bad actors have continued their unlawful activity which has resulted in numerous threats, disruption, and damage to Federal facilities and property.

**Background:** On June 26, the President issued the following Executive Order: Protecting American Monuments, Memorials, and Statues and Combating Recent Criminal Activity. In this order, the President directed that DHS “shall provide, as appropriate and consistent with applicable law, personnel to assist with the protection of Federal monuments, memorials, statues, or property.”

In furtherance of this directive, I have formalized the DHS Protecting American Communities Task Force (PACT) to provide an ongoing assessment of potential civil unrest and property destruction and to address internal resource allocation and potential surge activity to ensure the continuing protection of people and property.

Additionally, with the consent of other Departments and Agencies, I have determined that it is in the public interest and fiscally sound for FPS to partner with other federal law enforcement to execute the direction of the President. To that end, DHS began coordination with the Department of Justice (DOJ) and the Department of the Interior (DOI) to establish information/intelligence sharing and resource coordination as outlined in the order.

**Action:** The upcoming July 4<sup>th</sup> holiday weekend has the potential for increased disruptive activity at specific locations across the country that could threaten our personnel and the Federal facilities and property they protect. DHS will be forward leaning in preparing to protect Federal facilities and property.

ATF-00001495

Components with law enforcement personnel will coordinate with the Office of Operations Coordination and the FPS to:

1. Pre-position PACT Rapid Deployment Teams (RDT) or their equivalent (with appropriate training, equipment, and command and control) at each of the following locations: Portland, OR; Seattle, WA; and the District of Columbia, no later than 2 July to be used in a reserve force role.
2. Provide regional RDT's on standby to be used as a strategic reserve that can deploy within 6 hours of notification by the Department and to any location in the United States. The RDTs should be available by 2 July.
3. Complete cross-designation consent and the appropriate training with FPS to legally allow Components to support the protection of Federal facilities and property. This action must be complete prior to 2 July.

DHS' Office of Operations Coordination will continue to facilitate Department-level information sharing, reporting, and all other supporting actions across the Components and with our DOJ/DOI partners. FPS will continue to serve as the Department's lead for the protection of Federal facilities and property and shall be supported by Operational Components and all other DHS organizations.

Components should use existing guiding principles and risk assessments in support of this mission, ensuring the safety and security of our personnel.

## **A Message from Acting Secretary Chad Wolf on the Observance of Independence Day**

As our nation comes together to celebrate our Independence Day, it is important that we take time to reflect on the sacrifices of our predecessors in order to form a more perfect Union. Today, the men and women of the Department of Homeland Security uphold that remarkable legacy by fulfilling our duty to protect the American people.

It has been a great honor to lead this Department as we protect and defend the ideals that make our country great.

Thomas Jefferson asserted in the Declaration of Independence, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are Life, Liberty and the Pursuit of Happiness."

This Independence Day, and every day, we will continue to defend every American's right to those sacred truths.

Thank you for your dedication to the DHS mission and for your patriotism.

Chad F. Wolf  
Acting Secretary of Homeland Security

*With honor and integrity, we will safeguard the American people, our homeland, and our values.*

FPS Denver MegaCenter reports in Portland, OR, as of 2337 ET, there were approximately 200 demonstrators in the area of the Justice Center and the Hatfield Courthouse at 1000 Southwest 3rd Avenue that were generally peaceful.

- At 0054 ET protestors were shooting fireworks at the building on the west side and on the front steps.
- At 0111 ET approximately 750 protestors were in the park.
- At 0112 ET there was a subject in front of the courthouse yelling and attempting to smash the plywood boards.
- At 0124 ET a subject crawled up the building to spray paint a camera and knocked the camera down.
- At 0141 ET, the SOG team utilized a PLS with area saturation and 40 mm CS during to arrest the subjects tampering with the camera. The subjects were handed over to the U.S. Marshals.
- At 0202 ET, violent protesters are throwing rocks and shooting fireworks M60 mortars at the courthouse. Protesters broke the plate glass above the courthouse doors and are throwing paint and mace inside the courthouse. No injuries to law enforcement personnel reported.

ICE reports the San Francisco Special Response Team (SRT) was requested by FPS to modify their mission for last night, 4 Jul:

## (U//FOUO) 0900 CETC SITREP: Violence Across Multiple U.S. Cities

(U) Prepared by the DHS Intelligence Enterprise (DHS IE), Current and Emerging Threats Center (CETC), coordinated with Counterterrorism Mission Center (CTMC) and Cyber Mission Center (CYMC).

(U//LES) Summary: CETC continues to track violent incidents and threats of violence throughout the country. In the last 24 hours the types of people or groups seeking to carry out violence in response to the death of George FLOYD in Minneapolis has shifted in many cities. The initial violent looters and protestors were believed to be organic members of local communities and violent opportunists continue to incite violent activity both in person at lawful protests and online, including possible doxing attempts against specific law enforcement officers. Some domestic violent extremists and violent opportunists are attempting to influence certain protests to target specific symbols of state, local and federal authority. Protest activities in response to law enforcement's use of lethal force will continue to pose a risk of escalating to both premeditated and random attacks targeting law enforcement officers nationwide.

- (U//FOUO) I&A published two *Intelligence Notes* 1 June on violent opportunist activities and observed tactics. Over the next 24 hours, we do not anticipate a major shift in violence occurring during lawful protests across the country; however, as law enforcement operations amplify, violent opportunists are likely to increase the complexity of their efforts in response. We further note that violent opportunists will continue to use a range of weapons and counter-mobility, physical barriers, screening, and concealment tactics and will continue to engage in pre-operational surveillance and reconnaissance as a means to disrupt law enforcement operations; target law enforcement personnel, assets, and facilities; and damage public and private property.
- (U//LES) As of 2300 1 June, at least 15 major cities across the country had imposed curfews, and several had also declared States of Emergency, according to DHS field reporting. At least 20 states have mobilized or requested National Guard units to support infrastructure protection activities. Effective curfews, reduced protester turnout, improved law enforcement tactics, and National Guard deployments will likely deescalate violence in most locations that experienced violence compared to the last two days, according to field assessments from I&A field personnel. In Minneapolis, New York City, Oklahoma, and Philadelphia, field assessments of social media posts inciting violence may prompt an escalation of violence to levels seen this weekend.

WARNING: THIS PRODUCT MAY CONTAIN U.S. PERSON (USPER) INFORMATION THAT HAS BEEN DEEMED NECESSARY FOR THE INTENDED RECIPIENT TO UNDERSTAND, ASSESS, OR ACT ON THE INFORMATION PROVIDED. **(U//FOUO) Arrests and Attacks on US Law Enforcement During Civil Unrest**

(U//LES) In the aftermath of the death of George FLOYD on 25 May, CETC is tracking incidents of violence against US Law Enforcement Officers (LEOs) and subsequent arrests (to include arrests of individuals who traveled out-of-state) stemming from the civil unrest. CETC has compiled the below numbers from information being shared by federal, state and local partners as well as press reporting. CETC estimates the official number of LEOs injured and the official number of arrests made is significantly higher. CETC is working with our partners across the U.S. to obtain additional information. CETC will continue to update this information for publication in the daily 0900 SITREP.

Total LEOs Injured During Unrest	Total LEOs Injured in past 24 hours
180+	25+

Total Number of Arrests	Arrests in Past 24 Hours	Arrests of Out of State Individuals
5500+	800+	70+

**(U//FOUO) Damage Assessment**

(U//LES) CETC continues to work with partners on estimated damage assessments. Despite any official estimates, local officials have made statements about damage exceeding multi-millions of dollars, along with “untold economic damage”. CETC notes that hundreds and likely nearing a thousand vehicles and buildings have been looted, vandalized, or destroyed in past seven days. CETC will continue to update this section as additional information becomes available.

(U//FOUO) The following is an overview of significant reports received since 2300 1 June:

**(U//FOUO) NEW ENGLAND**

(U//FOUO) Portland, Maine and Providence, Rhode Island saw protests turn violent with minor vandalism and roads blocks (NFI).

- (U) **CONNECTICUT:** NSTR
- (U) **MAINE:** NSTR
- (U//LES) **MASSACHUSETTS:** The Mayor of Boston released a statement indicating nine officers have been hospitalized and noting the unrest has caused “untold economic damage” to the city. In addition, over 20 police vehicles have been destroyed, and dozens of buildings have been looted, vandalized, or set ablaze.
- (U) **NEW HAMPSHIRE:** NSTR
- (U//FOUO) **RHODE ISLAND:** Protests occurred outside of the Providence Place Mall (a block away from Saturday’s protest at State House) which turned violent on Tuesday morning. Protestors vandalized a police cruiser, eventually setting it on fire and caused substantial damage to vehicles and buildings in and around the surrounding area.
  - (U//FOUO) Vandalism at the State House in Providence has caused at least \$15,000 in damages.
- (U) **VERMONT:** NSTR

**(U//FOUO) NORTHEAST**

(U//FOUO) Law enforcement agencies across the region remain on high alert, specifically in PA and NYC. Overall, there have been two main hotspots (Philadelphia, New York City), and low-level violence and disruptions across the region, as well as direct violence against police officers including an incident in Buffalo and the Bronx, NY. National Guard Status-PA National Guard has been deployed to assist law enforcement and remains on standby in New York State. Curfews remain in effect in Philadelphia and New York City.

➤ (U) **NEW JERSEY:** NSTR

➤ (U//FOUO) **NEW YORK:** In Midtown Manhattan, there was widespread looting along the eastern portion of the neighborhood -- along the high-end shopping district of Fifth Avenue and Madison Avenue, close to Trump Tower<sup>USPER</sup>. The looting also extended further south into Herald Square and the iconic Macy's<sup>USPER</sup> building, which was broken into. There were also fires set and buildings vandalized. The New York Governor imposed a curfew of 2300 in New York City. More than 200 people were arrested last night at New York protests, mainly in Manhattan, police said.

- (U) In Buffalo, two officers were seriously injured after a vehicle intentionally rammed officers monitoring a gathering. The officers have been hospitalized and their current condition is unknown. The driver and passengers of the vehicle are in custody. Police say two people in the area have also been struck by gunfire (NFI).
- (U) A New York Police sergeant responding to a break-in at a pawn shop was struck by a black sedan. The sergeant is in serious, but stable condition with a leg and head injury.

➤ (U) **PENNSYLVANIA:** NSTR

(U//FOUO) **MID-ATLANTIC**

➤ (U) **DELAWARE:** NSTR

➤ (U//LES) **MARYLAND:** There were multiple overnight reports of bottles and projectiles being thrown at law enforcement in downtown Baltimore. Authorities are aware of plans by violent opportunists to conduct additional looting.

➤ (U//FOUO) **VIRGINIA:** Two Richmond Police officers and a suspect are injured a shooting on the city's south side early Tuesday morning. The officers and the suspect were transported to a local hospital for treatment. Two additional suspects were detained for questioning. There is no additional information on the condition of the officers nor suspect.

➤ (U//FOUO) **WASHINGTON DC:** Violent opportunists caused significant damage to businesses—chiefly glass damage, arson, and graffiti—across town.

- (U//FOUO) At approximately 0330, all CBP officers and agents that were deployed in the National Capital Region have demobilized and the EOC has shut down for the night. All personnel are safe and accounted for and will report back at 1600. The use of the #CBP and @CBP handles continue to trend with in a negative manner towards CBP. The CBP Intelligence Watch is continuing to monitor these posts for credible threats against CBP personnel. Currently, no credible threats have been identified.

#### (U//FOUO) PACIFIC NORTHWEST

- (U) **ALASKA:** NSTR
- (U//FOUO) **OREGON:** Law enforcement officers expect violent opportunists to continue to loot and damage critical infrastructure in Portland. The violence peaked on Friday 29 May and has been decreasing. Critical infrastructure damage in Portland and the associated costs are still being assessed by local officials. The head of the Portland Business Alliance estimated the cost to Portland's business will be in the millions, according to media reporting.
- (U//FOUO) **WASHINGTON:** Violent opportunists continued looting and damaging critical infrastructure on 1 June. Police declared a riot in the Capitol Hill area of Seattle after violent opportunists started throwing rocks, bottles, and fireworks at officers. Damage to critical infrastructure across the state is still being assessed by local officials. On Sunday May 31, the Mayor of Seattle indicated they are "reaching out to every business so that we can help assess the level of damages and what the city could do to help restore the downtown core," according to media reporting.

#### (U//FOUO) CENTRAL PACIFIC

- (U//FOUO) **NORTHERN/CENTRAL CALIFORNIA:** In the Bay Area, dozens of individuals were arrested for violating a curfew which went into effect at 2000 local time and scheduled to last until 0500 2 June. #### (U//FOUO) SOUTHWEST

- (U) **ARIZONA:** NSTR
- (U//FOUO) **SOUTHERN CALIFORNIA:** The Southern California counties of Los Angeles, Orange and San Diego have all experienced limited/isolated incidents of looting, criminal misconduct, vandalism and other civil disobedience this evening. All have enacted curfews in their respective jurisdictions. In Los Angeles the curfew applies to the entire county, in Orange and San Diego Counties only in selected locales. Incidents of confrontation escalated after curfews went into effect and law enforcement began to conduct enforcement actions. This evening's criminal incidents involved fewer participants and were not as violent or destructive as previous night's likely indicative of a trend towards de-escalation in this AOR.

- (U//LES) Violent opportunists continue to deploy fireworks and other incendiary devices, rocks, and bottles targeting skirmish lines deployed by local law enforcement with support from National Guard troops. No injuries have been reported today as a result of confrontations with gathering participants.
- (U//LES) **NEVADA:** According to the DHS I&A FOD personnel in the region, at approximately 2330 local time, a Las Vegas Metropolitan Police (LVMPD) was shot in the head while attempting to take a suspect into custody during violent demonstrations in Las Vegas. The officer is currently in critical condition. In a separate incident, approximately a minute later in Las Vegas, an unidentified individual was shot outside the Federal Courthouse by several LVMPD officers. The individual reportedly fired at the courthouse before being engaged by LVMPD officers. This individual has been transported to the hospital and they remain in critical condition. It is not believed that the subject who was shot is the person involved in the shooting of the Federal LEO due to the timing and close proximity of the shots fired.

#### (U//FOUO) FOREIGN INFLUENCE ACTIVITIES

(U//FOUO) **RUSSIA:** Russian state media continues to publish content concerning domestic unrest, particularly emphasizing the scale and level of intensity. Of note, CYMC observed a shift in narrative occurring away from police brutality towards allegations of hypocrisy, suggesting the US is experiencing what it deserves for meddling in other countries' domestic affairs. Russian state media also published content denigrating the US "establishment", politicians, and main stream media by suggesting exploitation of US minorities and the lower class.

(U) **Overview:** On 1 Jun, the President announced he is mobilizing all available federal resources, civilian and military, to end "the violence and restore security and safety in America." Over 17K National Guard soldiers have been activated across 24 states to support state and local law enforcement agencies. Several police officers have been injured since the last report.

(U) **NV:** Media reports a Las Vegas Metropolitan Police Department officer was shot in the head and is currently in critical condition. No suspect has been identified at this time. In a second incident, a U.S. Marshal was shot at, then returned fire hitting the suspect. The suspect is currently in critical condition.

(U) **MO:** St. Louis Police Department confirmed that four officers were shot and were then all transported to a local hospital. All their injuries are believed to be non-life threatening

(U) **IL:** The Governor deployed over 600 National Guardsman with an additional 600 more National Guardsman planning to deploy.

(U) **CA:** Richmond police officer suffered minor injuries after being hit by a car when police responded following reports of vandalism and looting on 1 Jun. The Governor declared a State of Emergency in Los Angeles County on 30 May.

(U) The FBI reports damage to several federal facilities in 14 cities (Chicago, Dallas, Des Moines, Detroit, Indianapolis, Norfolk, Omaha, Phoenix, Portland, Sacramento, San Francisco, St Louis, Seattle and Washington D.C.) between 29 to 31 May.

(U) On 2 Jun, DoD has directed all military bases within the National Capital Region to elevate from Force Protection Condition (FPCON) Bravo to FPCON Charlie in response to reported civil unrest until further notice. FPCON Charlie refers to potential targeting of personnel and facilities.

(U) The Federal Bureau of Prisons (BOP) has placed all of their facilities on complete lockdown for the first time in 25 years. The bureau runs 122 institutions nationwide and approximately 165,575 inmates were in the federal system as of 1 Jun.

(U) FEMA reports several State Emergency Operation Centers are activated for civil unrest: Full (MN, UT, WA, and WI); Partial (AZ, MO, NE and OK) and Monitoring (CA and PA). FEMA Regions II and III Regional Watch Centers (RWC) are working from alternate site

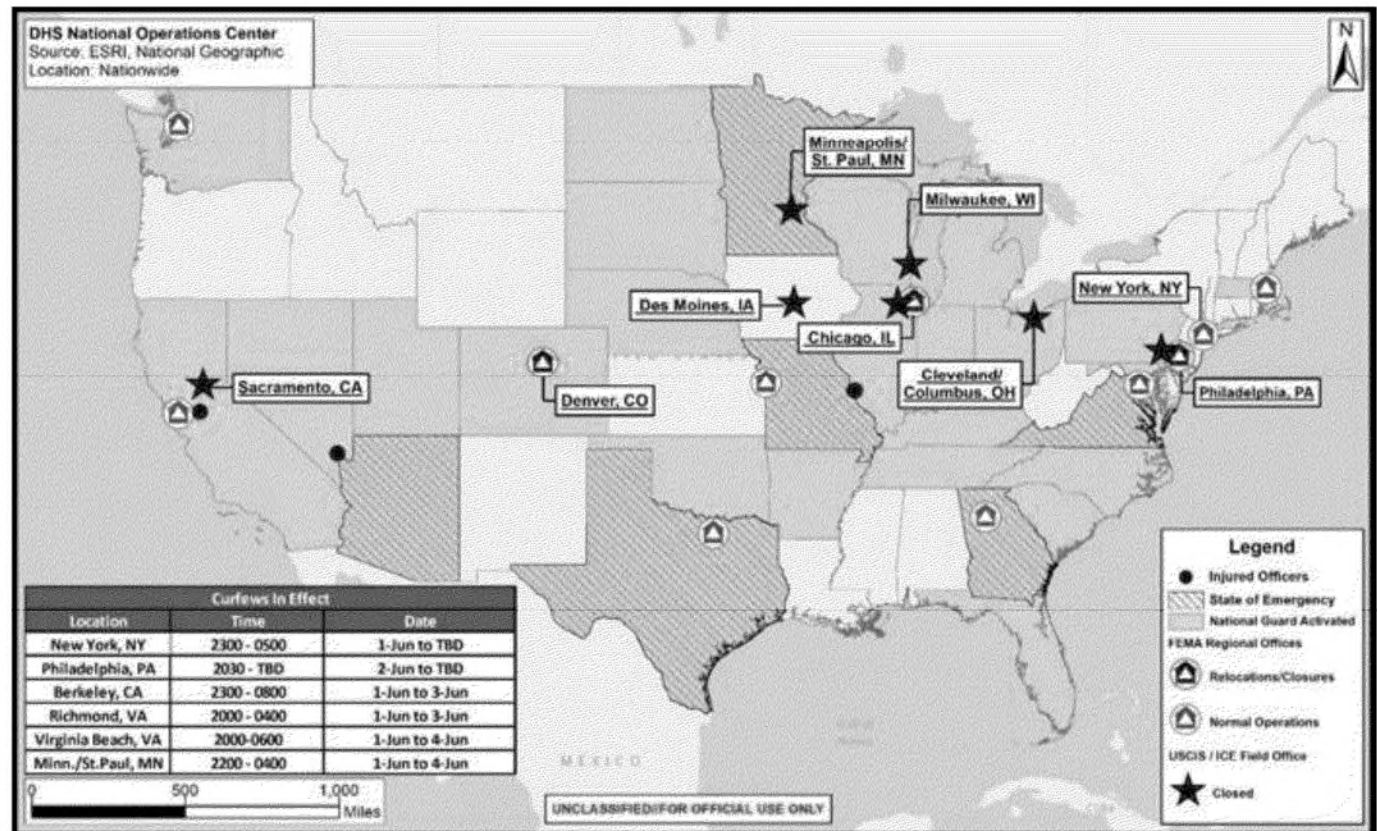

ATF-00001639

until 3 Jun. Region V (RWC) is working from an alternate location until 2 Jun. Region VIII RRCC is working remotely until further notice. Eight USCIS field offices are closed due to civil unrest (Philadelphia, Cleveland, Columbus, Des Moines, Milwaukee, Chicago, St Paul and Sacramento).

## PUBLIC SAFETY AND SECURITY

**(U) Violent Incidents Associated with FPS Protected Facilities 29 May – 29 June**

*(U//LES) We assess violent incidents associated with federal facilities fluctuated in line with changes to overall civil unrest nationwide, judging from a review of reported violent incidents associated with Federal Protective Service (FPS) protected facilities from 29 May through 29 June.* Violent incidents associated with certain regions, particularly Seattle, WA, and Portland, OR, were elevated compared to other regions during the last several weeks, which we attribute to the nature of lawful protest activities and the range of violent actors exploiting those protests. Certain tactics used against federal facilities are consistent with those utilized by violent opportunists intent on threatening law enforcement and we expect this activity will continue so long as lawful protest occur.

- *(U//LES)* From 29 May to 29 June, FPS reported 207 incidents of damage to FPS-protected facilities stemming from otherwise lawful protests. Of those 207 incidents, 115 occurred between Friday, 29 May and Monday, 1 June—the first major weekend of civil unrest.
- *(U//LES)* Low-level criminal conduct comprised the bulk of incidents noted, with vandalism comprising the majority, followed by limited property damage. I&A notes that while these events may not represent violent opportunist or terrorist threats, they provide insight into the threat environment likely to be faced by law enforcement and government facilities that violent opportunists often exploit.
- *(U//LES)* California, Oregon, and Washington, DC, accounted for the majority of incidents during this time period. Nationally the majority of reported incidents occurred prior to 1 June. 21 of California's 31 reported incidents throughout the state occurred after 1 June, bucking the overall trend; 11 of Portland's 25 incidents were reported after 1 June. FPS data indicates that four facilities—three in Portland, and one in Seattle—accounted for the bulk of reported lawful demonstrations, damage, and reported activity, with those areas accounting for 98 of the 386 (25 percent) of reported activities over the last month.

*(U)* Prepared by the Counterterrorism Mission Center and Federal Protective Service. Coordinated within the DHS Intelligence Enterprise (CWMD, ICE, TSA, USCG). For questions, contact the Homeland Security Single Point of Service, Request for Information Office at DHS-SPS-RFI@hq.dhs.gov

<b>Source Summary Statement</b>	(U//FOUO) This <i>Intelligence In Brief</i> utilized data provided by the FPS, based on information contained in their Law Enforcement Incident Management System. This data is entered by individual FPS members at associated facilities to track a range of incidents around federal facilities. We have <b>medium confidence</b> in the data, as characterization of incidents is based upon how individual users enter the data.
<b>Definitions</b>	(U//FOUO) <b>Violent Opportunists:</b> DHS I&A defines violent opportunists as illicit actors who may or may not hold violent extremist ideological beliefs, but seek to exploit opportunities in non-violent protests to engage in unlawful violence against federal, state, or local government and law enforcement personnel or facilities, as well as other critical infrastructure, that either poses a danger to human life, threat of potential destruction of the critical infrastructure, or would be so disruptive as to endanger the minimal operations of state and local governments to respond. These actors may capitalize on violent extremist narratives often espoused by organized domestic violent extremist movements, such as anarchist extremists or racially motivated violent extremists, to justify violent activities that may potentially destroy government critical infrastructure at the state, local and federal levels, and may attempt to incite others to violence to provide cover for their own illicit activities. Their primary motivations may be influenced by a variety of criminal objectives and goals.
<b>Reporting Suspicious Activity</b>	(U) To report suspicious activity, law enforcement, Fire-EMS, private security personnel, and emergency managers should follow established protocols; all other personnel should call 911 or contact local law enforcement. Suspicious activity reports (SARs) will be forwarded to the appropriate fusion center and FBI Joint Terrorism Task Force for further action. For more information on the Nationwide SAR Initiative, visit <a href="http://nsi.ncirc.gov/resources.aspx">http://nsi.ncirc.gov/resources.aspx</a> .

## Civil Disturbances

### Situational Overview

---

In Portland, OR, and Seattle, WA, demonstrations turned violent, with attacks on police lasting several hours. There were no reports of attempts to remove any memorials. There was damage to federal property in Portland. There are 1,265 (+692) National Guard personnel deployed across 12 states and DC for civil disturbance support. Since 25 May, there have been a total of 63 incidents of damage to federal property or landmarks.

### Locations of Interest

---

- **Portland, OR:** At 0157 ET, 3 Jul, FPS advised that there were approximately 250 protestors near the Edith Green-Wenell Wyatt Federal Building. The protestors were in front of the Justice Center and tied caution tape across the street from the Justice Center to the Hatfield Courthouse. The protestors then attempted to break the windows to the Hatfield Courthouse. Protestors refused to vacate the area and threw objects, shined strobe lights and lasers as well as shot fireworks at FPS. In response, FPS has deployed pepper balls.
  - By 0245 ET rioters had broken the front window as they attempted to make entry. The protestors then shot fireworks into the building, while FPS held them off with pepper balls. Portland Police Department were contacted and made entry into the building. By 0310 ET, FPS advised that all units are secure, FPS did not obtain any injuries, and protestors did not make entry into the building. The protestors had been moved away from the building by Portland Police.
  - By 0335 ET, approximately 50 to 75 protestors returned to federal property. They used incendiary devices and green lasers on FPS, who responded with pepper balls. The protestors then firebombed the building, but the fire was put out by U.S. Marshals. U.S. Marshals have deployed gas in the area to disperse the crowd. Damage to the building is unknown.
- **Seattle, WA:** Police reported protestors threw rocks, bottles and fireworks. Multiple arrests were made and police used CS to control the rioters. No injuries reported.
- **Washington, D.C.:** Federal law enforcement officials on 2 Jul arrested a man in Washington, D.C., they call a "ringleader" in the recent attempt to destroy the Andrew Jackson Statue in Lafayette Square near the White House. The man, who self-identifies in social media profiles as a supporter of Antifa, was charged Friday with two counts of destruction of federal property. He was arrested by the FBI and U.S. Park Police as part of a joint task force. The FBI's criminal complaint against the man also accuses him of being involved in the destruction of the Albert Pike Historical Statue in Washington, D.C., this month.
- **Gettysburg, PA:** PA State Police will stand up a Command Post in response to a potential flag burning event at Gettysburg National Park on 4 Jul. FBI, DOI/NPS, USMS, and Gettysburg Borough PD will be present. The Command Post will be activated on 4 Jul from 0800 ET to 0000 ET 5 Jul.
- **South Dakota:** On 3 Jul, POTUS, family members, and other dignitaries arrive at Mount Rushmore National Memorial for a 4th of July fireworks celebration. Several Native American

ATF-00001672

3 July 2020

groups reportedly plan to protest in the Keystone, SD area. Additionally, an "anti-Trump" rally is scheduled on 3 Jul in Keystone.

### Other Locations

---

- **Louisville, KY:** Police report a man was shot and killed in downtown Louisville on 2 Jul. Officers arrived on the scene to find a man in his 20s suffering from gunshot wounds. He was transported to University Hospital, where he died. The shooting took place adjacent to the area where nightly protests have taken place for more than a month, although it is unclear whether the shooting is related to the protests.
- **Los Angeles, CA:** A protest in L.A. on 2 Jul between the Hall of Justice and City Hall drew thousands of people. The protest remained peaceful.
- **Richmond, VA:** On 1 Jul, the statue of General Stonewall Jackson was removed by the Mayor (approved by the Governor), in the interest of public safety. Additional confederate memorials are planned to be removed in the coming days.
- **Boston, MA:** On 1 Jul, the Boston Art Commission voted unanimously to remove "The Emancipation Group" sculpture, also known as the "Freedman's Memorial," from Park Square in downtown Boston.
- **Charleston, WV:** Trials of multiple Logan WV PD officers, accused of excessive force against Mr. Morgan, begins on 7 Jul. There has been media attention and could serve as a catalyst for violent protests.
- **Des Moines, IA:** Federal and local LE are coordinating for potential unlawful activity during a planned protest gathering at the IA State Capitol Building on 4 Jul from 1300 ET to 1500 ET. The federal IA Central District courthouse is less than a mile away.
- **Minneapolis-St. Paul, MN:** The Governor has requested a Disaster Declaration for MN related to the recent civil unrest. The total cost of the damage has been assessed to more than \$500M.

## Support to Civil Disturbances

27 June 2020

### Situational Overview

With the exception of Portland, OR, demonstrations in key cities were again largely peaceful, including those in Washington, DC. The unrest in Portland on Friday night was significantly diminished from Thursday night's violent attempt to establish an autonomous zone, followed by arson and looting. Richmond, VA again required an Unlawful Assembly order to disperse protestors. There were no reports of injuries or attempts to remove any memorials, and no reported impacts to federal facilities. (b)(7)(E)

(b)(7)(E)

### Locations of Interest

- **Portland, OR:** After late-night demonstrations on Thursday resulted in four arrests, smashed store windows, looting, and fires set at Portland Police's North Precinct and elsewhere, much more limited unlawful activity was noted Friday night, with hundreds demonstrating at or near the Multnomah County Justice Center.

○ (b)(7)(E); (b)(7)(F)

Demonstrators blocked traffic and threw glass bottles and other projectiles at police while building a fence using materials they had brought. They then rammed dumpsters into precinct garage doors in an unsuccessful attempt to breach the building.

- Three hours into that demonstration, police declared an Unlawful Assembly and began to disperse the crowd, who then fought with officers, and shot paintball rounds at their face shields, blocking their view. Around 0140 PT, a mortar-type device was launched onto the roof of the North Precinct, prompting police to deploy crowd control munitions.
- Demonstrators then set fire to a side of the North Precinct building before being dispersed with CS (tear) gas. Demonstrators then looted and set fires in some nearby businesses. By 0400 PT (0700 ET), Portland Police reported the demonstrators had departed.
- Numerous officers sustained minor injuries. One was taken to the hospital for a more serious injury but is expected to make a full recovery. Four arrests were made over the course of Thursday night. Charges included Riot, Disorderly Conduct, Resisting Arrest, Interfering with a Police Officer, and Assaulting a Public Safety Officer.

○ (b)(7)(E); (b)(7)(F)

- The protestors arrived at Terry Shrunk Plaza and remained peaceful, with FPS units and media on site. Media described this gathering as an Abolish ICE protest involving numerous speakers. By 2131 PT, protesters had left the area.
- At 2145 PT, 200 protestors arrived back at the Justice Center and were blocking a street using caution tape, since the chain-link fence around the Justice Center they had used on previous nights for this purpose had been removed earlier in the day.

At 2210 PT, Multnomah County Sheriffs (who had not been directly involved in previous nights) told people to leave.

27 June 2020

Media reports they stated: "We have witnessed reckless endangerment, criminal mischief, disorderly conduct and unlawful use of a laser. If you do not stop, you will be subject to arrest and we may use force against you."

○ (b)(7)(E); (b)(7)(F)

○

- **Washington, DC:** Protesters returned to the Lincoln Park Emancipation Monument on Friday evening to continue calls for the statue's removal. There were no reports of injury or damage to federal facilities.

○ (b)(7)(E)

(b)(7)(E)

A counter-

protestor was safely escorted away from the conflict. The crowd claimed he was a Nazi sympathizer. The DC Metropolitan Police Department (MPD) reported the group, estimated at 200 to 225, then departed Lincoln Park moving westbound on Massachusetts Ave.

- Demonstrations in the vicinity of Lafayette Park also remained peaceful.

○ (b)(7)(E)

- **Richmond, VA:** For the fifth time this week, police declared an Unlawful Assembly and ordered crowds to disperse. There were no reported injuries.
  - The Virginia Capitol Police reported that police arrived at the Robert E. Lee Monument at 2200 ET to compel the 100-plus people on park grounds to depart (the grounds have always been closed from sunset to sunrise, which police began to enforce on 22 Jun).
  - At 2217 ET, Richmond Police reported they declared an Unlawful Assembly at the Lee Monument due to paintballs being fired at officers. One officer was struck by an object. Those gathered were ordered to leave the area or face arrest. Media reports several rounds of chemical irritants were released to disperse those remaining.
  - According to media, protesters returned to their original location after police departed shortly after 2300 ET.
  - The Mayor of Richmond issued a press release on 26 Jun announcing selection of a new Chief of Police, effective 1 July. The selectee currently serves as Deputy Chief of the Charlotte-Mecklenburg County Police Department in NC. Richmond's current interim chief will return to his previous position as a Major within the force.
- **Seattle, WA:** Protest activity was relatively subdued, with no reported injuries or damage to federal facilities.

○ (b)(7)(E); (b)(7)(F)

- By 2122 PT, protesters numbered approximately 250, were still spray painting the West Precinct, and had blocked off Virginia Street between 8<sup>th</sup> and 9<sup>th</sup> Streets. By 2203 PT, all protestors had departed the area.

The mayor met with demonstrators on Friday after some

27 June 2020

Capitol Hill Occupied Protest (CHOP) zone holdouts staged a successful sit-in to block heavy equipment from removing barricades that had been set up in the area that were limiting access. The mayor's spokesman said the Seattle Police plan to return to their abandoned East Precinct in the near future, but had no plans to do so this weekend.

## Other Locations

- **Madison, WI:** There were no reports of injury, damage or violence on Friday.
  - Regarding the 23 Jun arrest of an activist that triggered violent protests in Madison that night resulting in new a National Guard activation, the activist was charged on Friday with two counts of extortion and faces up to 40 years in prison if convicted. An FBI affidavit described threats to destroy businesses and burn them down if the owners did not provide free food and drink.
  - On 27 Jun NGB reported 132 Guardsmen activated in response to WI civil disturbances.
- **New York, NY:** Demonstrators continued to camp outside City Hall for a fourth day, demanding cuts to NYPD's budget. Protesters briefly closed the Brooklyn Bridge briefly early Saturday morning, but there were no new reports of injuries or violence in New York City.
  - At 0107 ET 27 Jan, NYC Emergency Management advised all lanes of the Brooklyn Bridge were closed in both directions due to protest activity. The bridge re-opened at 0140 ET.
  - Media reports the group of hundreds camped outside City Hall has continued to grow, and by Friday had filled the plaza, many with intent to stay at least until next week when the city budget is due. They want at least \$1 billion from NYPD's \$6 billion budget reinvested in housing, health care and social services.
- **Santa Fe, NM:** No new developments were noted for Friday.

### (U//LES) Tactics, Techniques, and Procedures (TTPs) Observed and/or Suggested during Recent Civil Unrest Demonstrations

**(U//LES) MNFC Analyst Comment:** In the hours and days following the 25 May 2020 in-custody death of George Floyd in Minneapolis, Minnesota, protests<sup>a</sup> and riots emerged not only in Minnesota, but also throughout the nation and world. In this bulletin, the MNFC details tactics, techniques, and procedures (TTPs) activists, demonstrators, and social media users have either used or incited others to use in response to Floyd's in-custody death. The MNFC is disseminating this bulletin to facilitate situational awareness, specifically focusing on TTPs intended to:

- (U//LES) Injure or kill law enforcement personnel or their families; and
- (U//LES) Tamper with law enforcement equipment, vehicles, and/or investigations.

(U//LES) As of 07 June 2020, FBI Field Offices reported the violence and criminal activity during protection of lawful protest has resulted in one federal officer killed, 147 federal officers injured, one local law enforcement officer killed, and 602 local officers injured across the nation.

(U//FOUO) Also included in this bulletin is Appendix A, which lists officer injuries/deaths resulting from the protests surrounding the in-custody death of George Floyd. This list is not exhaustive, and records have been validated through media sources.

(U//LES) The MNFC encourages all agents, officers, and administrative staff, regardless of their agency, to remain vigilant, situationally aware of their surroundings, and operationally secure at all times. Doing so includes noting suspicious persons and/or vehicles; securing vehicles, valuables, and firearms; and varying daily routines to and from work. Further, while initial online chatter specifically discussed targeting the four Minneapolis Police Department officers, individuals may seek to harm any law enforcement personnel, regardless of their affiliation or position.

(U//LES) Any local law enforcement agencies encountering activity or information indicative of potential threats toward law enforcement personnel, or suspicious activity suggestive of individuals surveilling law enforcement, should report details to the MNFC at (b)(6).

<sup>a</sup> (U//LES) The MNFC recognizes citizens have constitutionally protected rights to speak, assemble, and demonstrate peacefully. However, neither the state nor federal constitutions protect criminal activity or threats against citizens, critical infrastructure, or public safety. While this is first amendment protected activity, the MNFC is providing it for situational awareness, both due to historical trends involving similar incidents, and also because individuals seeking to commit crimes or foment violent engagements sometimes target public demonstrations.

### (U//LES) Observed or Suggested TTPs Intended to Injure or Kill Law Enforcement Personnel or their Families during Civil Unrests in May, June 2020

#### (U) Observed TTPs Targeting Law Enforcement during Civil Unrests in May, June 2020

(U//LES) The MNFC received reporting from local and nationwide law enforcement agencies regarding incidents in which demonstrators, activists, and/or extremists employed TTPs to target law enforcement personnel or their families, during the civil unrest occurring nationwide in May and June 2020. The items appearing below reflect information the MNFC received regarding both local and national incidents during this time:

**(U) Local Incidents**

- (U//FOUO) According to the FBI, a revolutionary anti-capitalist group based in Minneapolis, Minnesota collected intelligence on law enforcement personnel and National Guard personnel numbers, locations, and travel routes. The group had subsections and used the Slack messaging app to pass intelligence to the Antifa portion of the group.<sup>i</sup>
- (U//LES) Officers across the Minneapolis-St. Paul metro area reported they were possibly followed to or from their offices and/or residences.<sup>ii</sup>
  - (U//LES) On 04 June 2020, a Fridley Police Department officer reported, an identified individual took photos of her residence in Elk River and posted "Fuck 12" along with other threats on his social media account.<sup>iii</sup>
- (U//LES) Local law enforcement reporting indicated protesters used debris to erect a barricade and threw items from the overpass at law enforcement below.<sup>iv</sup>
- (U//FOUO) The MNFC received reporting from multiple law enforcement agencies regarding the staging of caches of incendiary materials and accelerants in Minnesota.
  - (U//FOUO) According to a federal partner, as of 0400 CDT on 01 June 2020, there have been numerous uncorroborated reports from social media claiming the presence of incendiary materials and accelerants throughout the metro, including claims of containers with an unknown liquid at the Hamlin Elementary School in St. Paul, Minnesota.<sup>v</sup>
  - (U//LES) The Minneapolis Police Department enforcement reported recovering a cache of propane tanks, on 31 May 2020, in the area of the Minneapolis 5<sup>th</sup> Precinct (see image, right).<sup>vi</sup>
  - (U//FOUO) The Bemidji Police Department reported finding what appeared to be pre-staged accelerants and combustible material in multiple dumpsters in the downtown area on the weekend of 30-31 May 2020.<sup>vii</sup>

**(U) National Incidents**

- (U//LES) The US Secret Service reported information from Atlanta riots indicates rioters poured gasoline in the street in attempts to lure officers, ignite the gasoline, and ultimately injuring and trapping officers responding to rioting groups.<sup>viii</sup> NFI.
- (U//LES) On 04 June 2020, 06/04/2020, two New York Police Department officers were struck by concrete filled tennis balls while working on civil unrest details.<sup>ix</sup> One officer was hospitalized with a contusion to the left shoulder.
- (U//LES) On 01 June 2020, FBI Boston received credible intelligence that rioters are looking for officers' home addresses via public payroll records.<sup>x</sup> Intelligence indicates that the groups scouted rural areas planning to pop-off in the city and have surprise riots in small towns. One local town had over 20K hits on the public payroll webpage in 48 hours.

- (U//LES) On 02 June 2020, an FBI Boston Situation Intelligence Report detailed the targeting of law enforcement residences, with individuals canvassing neighborhoods and taking pictures of homes with police cruisers in the driveways.<sup>xi</sup>
- (U//LES) As of 31 May 2020, according to a federal partner, Antifa planned to utilize vehicle borne improvised explosive devices (VBIEDs) to launch attacks against National Guard and law enforcement agencies, according to a human source. The vehicles were expected to use fictitious license plates.<sup>xii</sup>

**(U) TTPs Suggested via Online Chatter for Targeting Law Enforcement during Civil Unrests in May, June 2020**

(U//FOUO) In the hours and days following the in-custody death of George Floyd, widespread anti-law enforcement sentiment appeared across social media platforms, including ideas of revenge and an “eye for an eye,”<sup>xiii</sup> inciting violence against and killing law enforcement personnel, specifically federal agents, but regardless of agency or affiliation<sup>xiv</sup>, and their families.<sup>xv</sup> Online chatter suggested who to target, what type of weapons to utilize, and how to obtain necessary weaponry.

- (U//FOUO) On 02 June 2020, a social media user likely based in Columbus, Ohio incited others to shoot law enforcement.<sup>xvi</sup> In response to a video posted online depicting the Grand Rapids police department firing tear gas at violent opportunists, the individual posted, ***“It’s time to start shooting back #ACAB.”***
- (U//FOUO) On 01 June 2020, a social media user supporting violent resistance posted TTPs for creating various improvised weapons to use in attacking law enforcement.<sup>xvii</sup> The individual included the following items in their post:
  - (U//FOUO) ***“The weapons of defense employed by Afroamerican freedom fighters must consist of a poor man’s arsenal. Gasoline fire bombs (Molotov cocktails), lye or acid bombs (made by injecting lye or acid in the metal end of light bulbs) can be use extensively.”***

(U//FOUO) MNFC Analyst Comment: (b)(7)(E); (b)(7)(F)

(b)(7)(E); (b)(7)(F)

- (U//FOUO) ***“During the night hours such weapons, thrown from roof tops, will make the streets impossible for racist cops to patrol.”***
- (U//FOUO) ***“Hand grenades, bazookas, light mortars, rocket launchers, machine guns and ammunition can be bought clandestinely from servicemen, anxious to make a fast dollar. Freedom fighters in military camps can be contacted to give instructions on usage. Extensive sabotage is possible.”***
- (U//FOUO) ***“Gas tank on public vehicles can be choked up with sand. Sugar is also highly effective in gasoline lines. Long nails driven throughout boards and tacks with***

**large heads are effective to slow the movement of traffic** on congested roads at night.  
This can cause havoc at turnpikes.”

- (U//FOUO) On 01 June 2020, a social media user believed to be located in Atlanta, Georgia, incited others to **kill the children of law enforcement officials**.<sup>xviii</sup> While the individual identified children of law enforcement officials as potential targets, they did not offer guidance on how to execute such attacks or what weapons to utilize.

**(U//LES) Observed or Suggested TTPs Intended to Tamper with Law Enforcement Equipment, Vehicles, and/or Investigations during Civil Unrests in May, June 2020**

**(U) Observed TTPs Targeting Law Enforcement Equipment, Vehicles, and/or Investigations**

(U//LES) The MNFC received reporting from local and nationwide law enforcement agencies regarding incidents in which demonstrators, activists, and/or extremists employed TTPs to target law enforcement equipment, vehicles, and/or investigations, during the civil unrest occurring nationwide in May and June 2020. The items appearing below reflect information the MNFC received regarding both local and national incidents during this time:

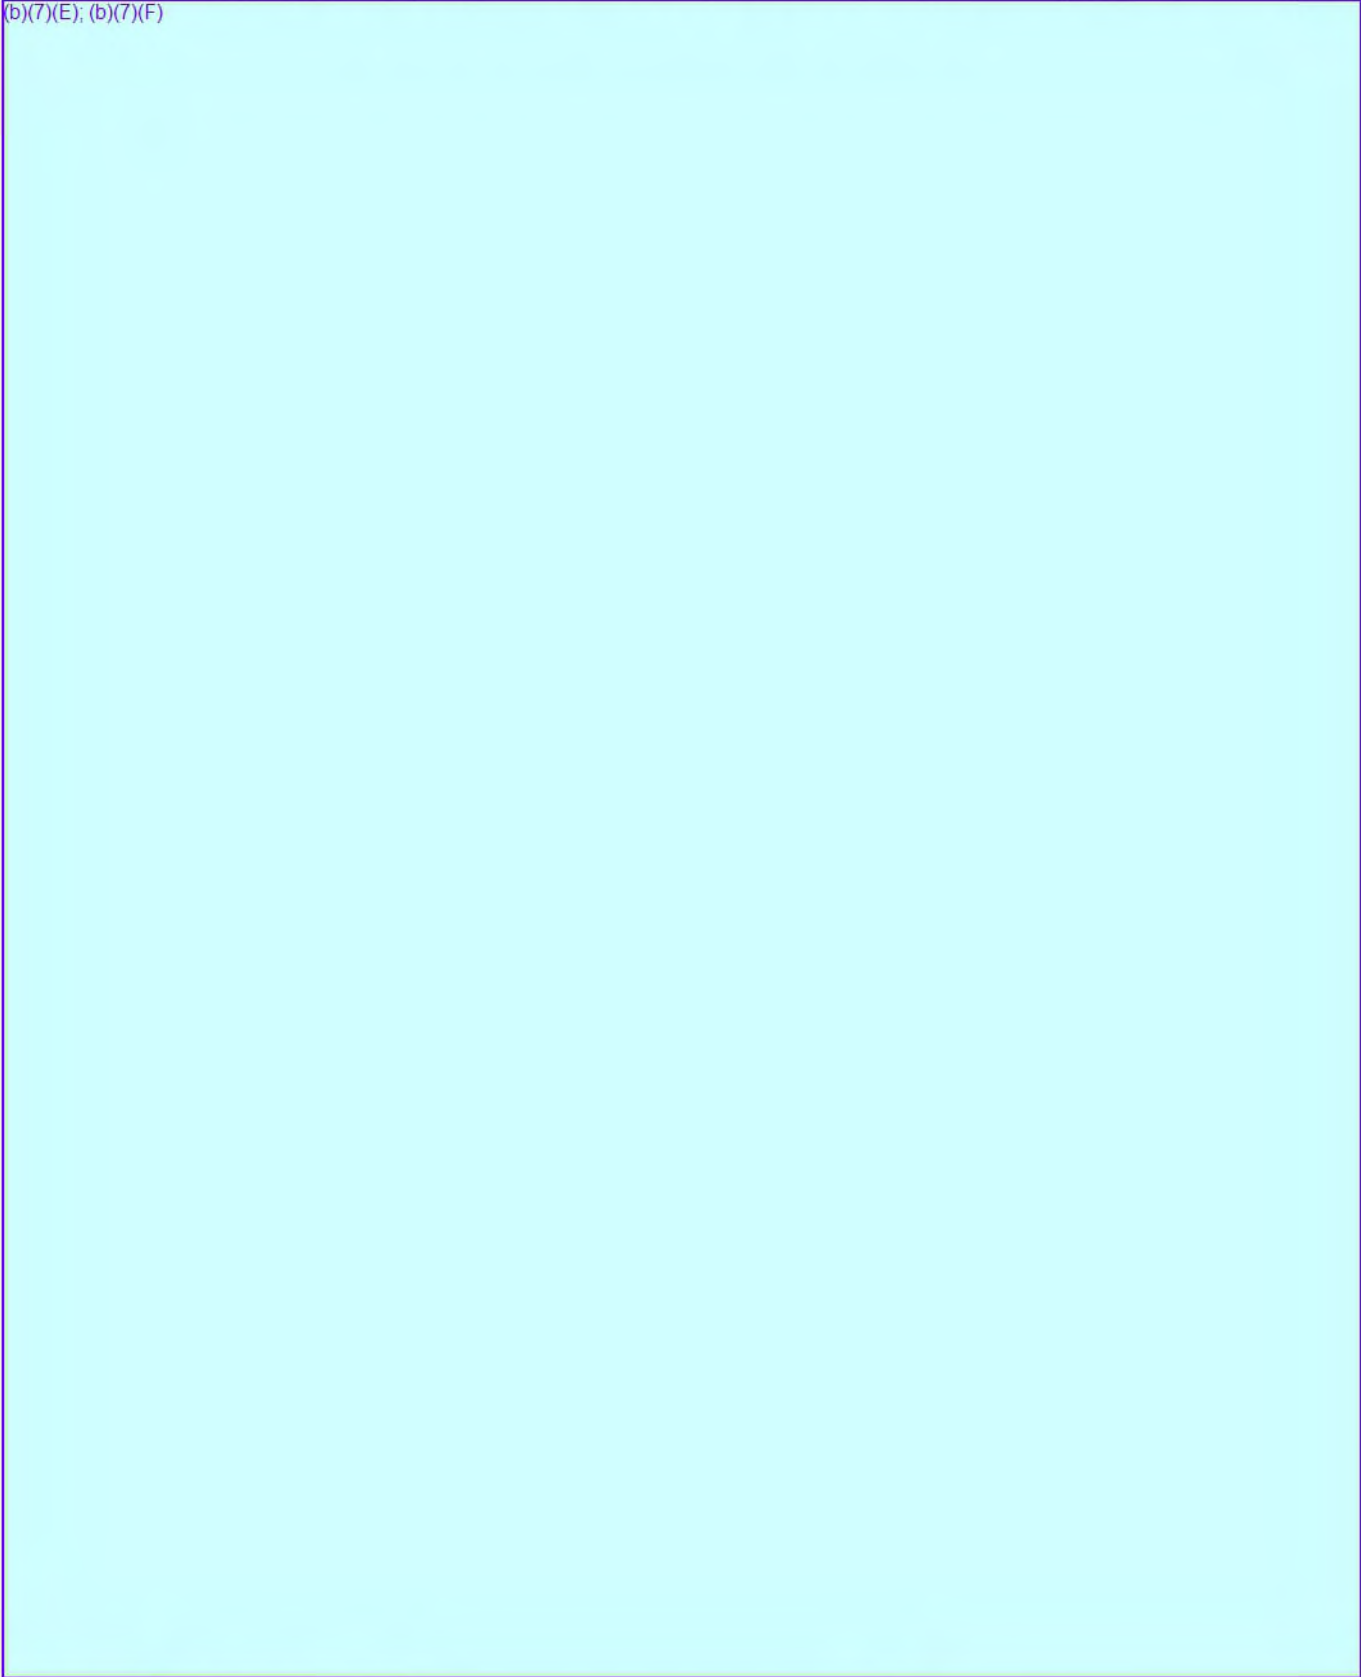

**(U) Local Incidents**

- (U//LES) On the evening of 04 June 2020 and into the following morning, an identified USPER allegedly used a green laser to illuminate a Minnesota State Patrol (MSP) helicopter. The MSP helicopter was supporting civil unrest operations in the Minneapolis, Minnesota, area. The illumination occurred for over 20 minutes, despite multiple MSP evasive actions, including extinguishing the helicopter's external lights and flying well south of Twin Cities metropolitan area. The USPER was booked into the Hennepin County Jail after a probable cause arrest.<sup>xxi</sup>
- (U//LES) During the civil unrest in Minnesota, local law enforcement reporting that large groups of protesters were splintering into smaller groups to divide law enforcement resources and prevent additional law enforcement action.<sup>xxii</sup>
- (U//LES) Demonstrators in the Dinkytown area in Minnesota employed sleeping dragons.<sup>xxiii</sup>
- (U//LES) On 31 May 2020, violent opportunists used a stolen Minneapolis Police Department (MPD) portable radio to counter law enforcement anti-riot operations in Minnesota.<sup>xxiv</sup> Minneapolis Emergency Communications Center (MECC) officials observed two instances in which violent opportunists conducted unauthorized use of the radio in order to influence law enforcement operations.
  - (U//LES) In the first instance, violent opportunists pressed the radio's emergency button twice, sending an emergency signal to dispatch prompting the dispatcher to conduct a status check on the law enforcement officer. It is likely the violent opportunist pressed the emergency signal as a means to disrupt law enforcement communications on the channel.
  - (U//LES) In the second instance, an unidentified violent opportunist broadcasted, "stand down... go home," on the radio as law enforcement officers maneuvered towards violent opportunists during anti-riot operations. MECC officials successfully deactivated the radio remotely after identifying it. It is likely the radio was stolen from the MPD Third Precinct, which violent opportunists destroyed on 28 May 2020.

(b)(7)(E); (b)(7)(F)

<sup>1</sup> (U//FOUO) (b)(7)(E); (b)(7)(F)
