This is a high priority for the USAO, and HSI is one part, albeit an important piece, of the multi-agency effort.

(b)(7)(E) and analysts represents a significant bite out of Portland's footprint. Does Domestic Operations have available funding to TDY an agent to Portland to serve in the full-time "duty" role described below? This would essentially by (b)(7)(E) shift consisting of coordinating with FPS on intake of evidence, handling of arrestees, etc.

Please let me know if you have any questions or considerations, and whether TDY funding would be available for this effort.

## Operations Support - Incident Report

02 June 2020

(U//FOUO) **Reporting Notice:** This product was prepared by U.S. Customs and Border Protection, Office of Intelligence, National Intelligence Watch.

### (U//FOUO) Nationwide Protests

#### (U) Current Situation

(U//FOUO) *The nation has seen an increase in protests, sponsored by multiple domestic organizations, following the death of George Floyd<sup>USPER</sup>. Based on open source and social media reporting, the majority of these protests, sponsored by the "Black Lives Matter" movement have remained peaceful.* However, due to nefarious actors using these protests as façades, there have been incidents where law enforcement (LE) officials have needed to respond with escalated force – incidents including the use of pepper spray, riot shields, and rubber bullets. LE have had to use non-lethal, and in some cases lethal, force to control the civil unrest in cities around the nation. LE has suffered over 100 injuries, dozens of LE vehicles destroyed, and there are reports of police stations being burnt down. While many of these protests have occurred around major cities, some have occurred near CBP locations to include CBP headquarters where there has been protests and some looting.

(U//FOUO) Over the past 24 hours, we have seen numerous protests occur across the nation. Starting at 1700 on 1 June, peaceful protests began across D.C. Around 1800, Acting

(b)(6); (b)(7)(C) tweeted a photo of CBP agents and officers who were in the capital area to support local law enforcement, which garnered multiple threats calling for open season on CBP. Despite Washington D.C., enacting a curfew starting at 1900, several groups were spotted in the city throughout the night with no law enforcement escalation required. The use of the #CBP and @CBP handles continue to trend with in a negative manner towards CBP. Around 0330 this morning, all CBP officers and agents deployed in the National Capital Region were demobilized for the day.

(U//FOUO) Most major cities have enforced curfews, which has led to a decrease of violence and unrest in various cities. However, in New York, due to wide spread looting over 200 individuals had been arrested. According to open source reporting four police officers were shot in St. Louis and two police officers were shot in Las Vegas, NV. Violent protests has been reported in several California cities. However, not at the level of previous nights of protest with many cities enforcing their curfews.

All,

I just wanted to send a short update regarding the HSI support to FPS for the civil unrest occurring in Portland. HSI SF SRT arrived in town July 2, 2020 and was initially deployed to protect the ICE building. Due to the activity occurring in downtown Portland near the Federal courthouse and (b)(6); (b)(7)(C) building, the team's assignment shifted to protecting both of these buildings. I have attempted to minimize the impact on our HSI Portland operations as much as possible by having myself, (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C) support the HSI SRT element nightly in the FPS Command Post

It has turned into quite a joint support operation with the following Agencies Participating:

(b)(7)(E)

It is anticipated that a ERO SRT team will relieve the HSI SRT team on Saturday Morning. It is anticipated that the ERO contingent will take over responsibility for representing ICE at the command post. However, HSI does have some equities and interest in these FPS operations. Several HSI Personnel have been victims of assault (b)(7)(E) So while I don't anticipate needing to staff the Command Post over the weekend, I would like to have at least (b)(7)(E) GS available should HSI need to respond to the CP to assist. See press release -

(b)(7)(E)

Should HSI need personnel in the CP it would be to staff the following two shifts:

7/11 - (b)(7)(E) (end time approximate)  
7/12 - (b)(7)(E) (end time approximate)

\*\*\*I don't anticipate staffing these shifts, but want to have someone identified just in case.

Please let me and your supervisor know if you are available to cover one of these shifts.

Thanks all!

All,

HSI no longer has HSI SRT assets assisting with the unrest around the courthouse. However, due to the consistent activity related to the unrest HSI Portland will continue providing support in the command post daily until further notice. Starting tomorrow, July 11, 2020 we are going to have the duty agent attend the (b)(7)(F)pm nightly operational brief located at Edith Green federal building and man the command post at the federal courthouse starting between (b)(7)(F)pm until FPS closes the command post down around (b)(7)(E)

(b)(7)(E)

Please get with your GS for more specific instructions as to what your duties will be. But bring your handheld, work laptop and a helpful attitude. There are a lot of moving pieces and a lot of things we can do to support the overall mission.

I have the following as duty the next 3 days:

Saturday July 11 (b)(6); (b)(7)(C)  
Sunday July 12-  
Monday July 13

- Mobile surveillance

High Points of night (250+/-) - Smaller crowds of protestors gather in front of Hatfield

- Protestors deployed Molotov cocktails, lasers, fireworks, rocks, and burning trash.

Specific noteworthy events - HSI personnel using Followmee.com app to track mobile units. Initial feedback is positive.

Investigative Actions - Identified suspicious vehicle (Penske Box truck) in the vicinity of the riots. Truck departed the downtown area after majority of the protest was over for the evening. Units followed the truck to a rest

stop south of Wilsonville, OR where it appeared to stop for the occupants to sleep. The truck behaved suspiciously while leaving Portland by conducting random and abrupt turns and following a circuitous route to Southbound I-5.

All,

Today the Portland City Council passed a resolution that, in part, state that the members of the Portland Police Bureau is prohibited from doing the following:

- All members of the Portland Police Bureau **shall not provide, request, or willingly receive operational support** (which includes but is not limited to embedding in a federal incident command center, sharing or receiving information from above defined federal forces, engaging in policing or crowd control measures with above federal forces) from any agent or employee representing or constituting part of deployment under executive order from the president, be they from Department of Homeland Security, the U.S. Marshals Service, the Federal Protective Service, U.S. Customs and Border Protection or any other service;

At this time, based on advice from our City Attorney's Office, we can no longer share any information or intelligence (including any active threats to life) with any federal agency as it relates to the current protests; and, we may not solicit any information or intelligence. As you can imagine, I have many questions about what that all means and will be discussing with our attorney but for now, we have to abide by the City Council directive.

For our non-federal law enforcement partners, this resolution does not apply.

My personal and professional apologies to you all who have worked and are continuing to work so hard to keep everyone safe.

Respectfully,

We ended up with about 25 protestors about 45 min after my email. They cleared out around 1620.

We have about 25 people out there and a man with a professional media-type camera. The woman that dropped off the drums and such was arrested a couple of days ago for interfering with a police officer and arrested last year for assaulting a police officer. Her name is (b)(6); (b)(7)(C)

Looks like it is down to four

About a dozen people as of 1:50 pm. No problem leaving building.

The Fusion Center IO has provided the following:

I have a bunch of folks looking for more info on this but don't have anything additional from previous reports...As stated by local FPS They are working with PPB, FBI, ATF, and HSI to follow up. The protest was in support of George Floyd who was recently killed by Minneapolis police. There has been rioting in several cities and it seems likely we will experience additional protests in the PNW. Out of an abundance of caution we recommend that a social distancing/telework posture be maintained at DHS facilities to minimize risk and that employees who are working at federal facilities be attuned to suspicious activity and employ prudent officer/agent safety practices.

We expect related protests in Seattle this Saturday that will travel to the USCH at 700 Stewart and possibly other federal facilities. We are working on a response plan with (b)(7)(E)
