Support to Civil Disturbances

27 June 2020

Situational Overview

With the exception of Portland, OR, demonstrations in key cities were again largely peaceful, including those in Washington, DC. The unrest in Portland on Friday night was significantly diminished from Thursday night's violent attempt to establish an autonomous zone, followed by arson and looting. Richmond, VA again required an Unlawful Assembly order to disperse protestors. There were no reports of injuries or attempts to remove any memorials, and no reported impacts to federal facilities. The National Guard Bureau (NGB) reports activations in response to civil disturbances continue in five states and DC, with the number of activated personnel decreasing significantly, now a total (b)(7)(E)

Locations of Interest

- **Portland, OR:** After late-night demonstrations on Thursday resulted in four arrests, smashed store windows, looting, and fires set at Portland Police's North Precinct and elsewhere, much more limited unlawful activity was noted Friday night, with hundreds demonstrating at or near the Multnomah County Justice Center.
 - The Portland Police Bureau released details on how demonstrators attempted to establish an autonomous zone late Thursday night into early Friday morning near their North Precinct. Demonstrators blocked traffic and threw glass bottles and other projectiles at police while building a fence using materials they had brought. They then rammed dumpsters into precinct garage doors in an unsuccessful attempt to breach the building.
 - Three hours into that demonstration, police declared an Unlawful Assembly and began to disperse the crowd, who then fought with officers, and shot paintball rounds at their face shields, blocking their view. Around 0140 PT, a mortar-type device was launched onto the roof of the North Precinct. (b)(7)(E)
 - Demonstrators then set fire to a side of the North Precinct building (b)(7)(E). (b)(7)(E) Demonstrators then looted and set fires in some nearby businesses. By 0400 PT (0700 ET), Portland Police reported the demonstrators had departed.
 - Numerous officers sustained minor injuries. One was taken to the hospital for a more serious injury but is expected to make a full recovery. Four arrests were made over the course of Thursday night. Charges included Riot, Disorderly Conduct, Resisting Arrest, Interfering with a Police Officer, and Assaulting a Public Safety Officer.
 - At 1837 PT on Friday night, an FPS PSO at the Edith Green Federal Building advised of a demonstration of about 500 peaceful protesters marching from the Pioneer Courthouse to Edith Green and Terry Shrunken Plaza, one block away.
 - The protestors arrived at Terry Shrunken Plaza and remained peaceful, with FPS units and media on site. Media described this gathering as an Abolish ICE protest involving numerous speakers. By 2131 PT, protestors had left the area.
 - At 2145 PT, 200 protestors arrived back at the Justice Center and were blocking a street using caution tape, since the chain-link fence around the Justice Center they had used on previous nights for this purpose had been removed earlier in the day.

27 June 2020

At 2210 PT, Multnomah County Sheriffs (who had not been directly involved in previous nights) told people to leave.

Media reports they stated: "We have witnessed reckless endangerment, criminal mischief, disorderly conduct and unlawful use of a laser. If you do not stop, you will be subject to arrest and we may use force against you."

- Most protesters left the immediate area in response, but an FPS PSO reported by 2345 PT, approximately 150 protesters had re-assembled and were again attempting to break down the door to the Portland Police Precinct, then opted to instead place objects in front of it.
- At 0215 PT, the FPS PSO advised that the protestors had departed the area.
- **Washington, DC:** Protesters returned to the Lincoln Park Emancipation Monument on Friday evening to continue calls for the statue's removal. There were no reports of injury or damage to federal facilities.
 - US Capitol Police reported the planned 1800 ET gatherings at Lincoln Park remained peaceful, with one reported skirmish between two men around 2030 ET. A counter-protestor was safely escorted away from the conflict. The crowd claimed he was a Nazi sympathizer. The DC Metropolitan Police Department (MPD) reported the group, estimated at 200 to 225, then departed Lincoln Park moving westbound on Massachusetts Ave.
 - Demonstrations in the vicinity of Lafayette Park also remained peaceful.
 - On 27 Jun NGB reported 139 Guardsmen activated in response to DC civil disturbances.
- **Richmond, VA:** For the fifth time this week, police declared an Unlawful Assembly and ordered crowds to disperse. There were no reported injuries.
 - The Virginia Capitol Police reported that police arrived at the Robert E. Lee Monument at 2200 ET to compel the 100-plus people on park grounds to depart (the grounds have always been closed from sunset to sunrise, which police began to enforce on 22 Jun).
 - At 2217 ET, Richmond Police reported they declared an Unlawful Assembly at the Lee Monument due to paintballs being fired at officers. One officer was struck by an object. Those gathered were ordered to leave the area or face arrest. Media reports several rounds of chemical irritants were released to disperse those remaining.
 - According to media, protesters returned to their original location after police departed shortly after 2300 ET.
 - The Mayor of Richmond issued a press release on 26 Jun announcing selection of a new Chief of Police, effective 1 July. The selectee currently serves as Deputy Chief of the Charlotte-Mecklenburg County Police Department in NC. Richmond's current interim chief will return to his previous position as a Major within the force.
- **Seattle, WA:** Protest activity was relatively subdued, with no reported injuries or damage to federal facilities.
 - At 2122 PT, an FPS Inspector located at Seattle United States District Courthouse, advised that there were approximately 100 protestors at the West Precinct, adjacent to federal property. The protestors were spray painting and throwing rocks at the windows of the West Precinct. (b)(7)(E)
 - By 2122 PT, protestors numbered approximately 250, were still spray painting the West Precinct, and had blocked off Virginia Street between 8th and 9th Streets. By 2203 PT, all protestors had departed the area.

The mayor met with demonstrators on Friday after some

27 June 2020

Capitol Hill Occupied Protest (CHOP) zone holdouts staged a successful sit-in to block heavy equipment from removing barricades that had been set up in the area that were limiting access. The mayor's spokesman said the Seattle Police plan to return to their abandoned East Precinct in the near future, but had no plans to do so this weekend.

Other Locations

- **Madison, WI:** There were no reports of injury, damage or violence on Friday.
 - Regarding the 23 Jun arrest of an activist that triggered violent protests in Madison that night resulting in new a National Guard activation, the activist was charged on Friday with two counts of extortion and faces up to 40 years in prison if convicted. An FBI affidavit described threats to destroy businesses and burn them down if the owners did not provide free food and drink.
 - On 27 Jun NGB reported 132 Guardsmen activated in response to WI civil disturbances.
- **New York, NY:** Demonstrators continued to camp outside City Hall for a fourth day, demanding cuts to NYPD's budget. Protesters briefly closed the Brooklyn Bridge briefly early Saturday morning, but there were no new reports of injuries or violence in New York City.
 - At 0107 ET 27 Jan, NYC Emergency Management advised all lanes of the Brooklyn Bridge were closed in both directions due to protest activity. The bridge re-opened at 0140 ET.
 - Media reports the group of hundreds camped outside City Hall has continued to grow, and by Friday had filled the plaza, many with intent to stay at least until next week when the city budget is due. They want at least \$1 billion from NYPD's \$6 billion budget reinvested in housing, health care and social services.
- **Santa Fe, NM:** No new developments were noted for Friday.
- **Reno, NV:** An FPS PSO reported an afternoon demonstration at the Bruce R. Thompson Courthouse by 150 remained peaceful, with no impact to the federal facility.

MEMORANDUM FOR: DISTRIBUTION

FROM: Chad F. Wolf
Acting Secretary

A handwritten signature in black ink, appearing to read "Chad F. Wolf".

SUBJECT: DHS Support to Protect Federal Facilities and Property

Purpose: The purpose of this memorandum is to provide guidance for direct support to the Federal Protective Service and our interagency partners to protect all federal facilities and property.

Introduction: The Department plays a key role in protecting Federal facilities and property primarily through the Federal Protective Service (FPS) and in partnership with other DHS law enforcement Components, interagency partners, and state and local partners. Recently, we have seen numerous instigators, criminals and other bad actors use peaceful protests to harm people and property, both Federal and private. For the past month, these bad actors have continued their unlawful activity which has resulted in numerous threats, disruption, and damage to Federal facilities and property.

Background: On June 26, the President issued the following Executive Order: Protecting American Monuments, Memorials, and Statues and Combating Recent Criminal Activity. In this order, the President directed that DHS "shall provide, as appropriate and consistent with applicable law, personnel to assist with the protection of Federal monuments, memorials, statues, or property."

In furtherance of this directive, I have formalized the DHS Protecting American Communities Task Force (PACT) to provide an ongoing assessment of potential civil unrest and property destruction and to address internal resource allocation and potential surge activity to ensure the continuing protection of people and property.

Additionally, with the consent of other Departments and Agencies, I have determined that it is in the public interest and fiscally sound for FPS to partner with other federal law enforcement to execute the direction of the President. To that end, DHS began coordination with the Department of Justice (DOJ) and the Department of the Interior (DOI) to establish information/intelligence sharing and resource coordination as outlined in the order.

Action: The upcoming July 4th holiday weekend has the potential for increased disruptive activity at specific locations across the country that could threaten our personnel and the Federal facilities and property they protect. DHS will be forward leaning in preparing to protect Federal facilities and property.

ATF-00001495

Components with law enforcement personnel will coordinate with the Office of Operations Coordination and the FPS to:

(b)(7)(E)

DHS' Office of Operations Coordination will continue to facilitate Department-level information sharing, reporting, and all other supporting actions across the Components and with our DOJ/DOI partners. FPS will continue to serve as the Department's lead for the protection of Federal facilities and property and shall be supported by Operational Components and all other DHS organizations.

Components should use existing guiding principles and risk assessments in support of this mission, ensuring the safety and security of our personnel.

A Message from Acting Secretary Chad Wolf on the Observance of Independence Day

As our nation comes together to celebrate our Independence Day, it is important that we take time to reflect on the sacrifices of our predecessors in order to form a more perfect Union. Today, the men and women of the Department of Homeland Security uphold that remarkable legacy by fulfilling our duty to protect the American people.

It has been a great honor to lead this Department as we protect and defend the ideals that make our country great.

Thomas Jefferson asserted in the Declaration of Independence, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are Life, Liberty and the Pursuit of Happiness."

This Independence Day, and every day, we will continue to defend every American's right to those sacred truths.

Thank you for your dedication to the DHS mission and for your patriotism.

Chad F. Wolf
Acting Secretary of Homeland Security

With honor and integrity, we will safeguard the American people, our homeland, and our values.

Subject: America's Birthday

Colleagues - Like many of you, I am looking forward to this 4th of July weekend. Without a doubt this will be a fourth like no other. When we traditionally think about this holiday, we think about watching fireworks with our families, hosting picnics, and attending celebrations. While COVID-19 has changed many of our plans, nothing can prevent us from celebrating the birth of our nation and the values it represents.

In many respects, recent crises have demonstrated how strong America is when we work together and remind us of our shared values. Difficult times make us stronger and will make us better as a nation.

I want to express my sincere appreciation for the hard work that you, the men and women of OPS, do every single day. Your efforts do not go unnoticed by me, throughout and across the Department and with our external partners. As an operational staff, I want to pass along a special thanks to those who will work this holiday weekend to continue to keep our nation safe and fulfil our responsibilities by maintaining vigilance. Your selfless efforts help keep everyone, especially our law enforcement colleagues and those peacefully expressing their opinions, safe.

I encourage you to relax and enjoy the holiday, while continuing to employ social distancing and other measures designed to keep us all safe. Happy Birthday America.
