(U//LES) Preventing Violence and Criminal Activity During the July 4th Holiday Period

29 JUNE 2020 - 1700

(U//LES) Information provided in this update is based on responses provided to the Preventing Violence and Criminal Activity (PVCA) During the July 4th Holiday Period Joint Inter-Agency Command Post in the FBI Strategic Information Operations Center as of the information cut-off time of 1000 EST on 29 June. The following agencies contributed to the development of this SITREP: ATF, DHS, DoJ, DoD, MPD and USMS. Responses provided after the cut-off time will be included in the next SITREP.

(U//LES) The information marked (U//LES) in this document is the property of the FBI and may be distributed within the Federal Government (and its contractors), U.S. intelligence, law enforcement, public safety or personnel officials, and individuals with a need to know. Distribution beyond these entities without FBI authorization is prohibited. Protections should be taken to ensure the information is stored and/or destroyed in a manner that prohibits unauthorized access. Information bearing the LES caveat may not be used in legal proceedings without first receiving authorization from the originating agency. Responses are prohibited from subsequently posting the information marked LES on a website or an unclassified network.

(U//LES) Under FBI policy and federal law, no investigative activity may be based solely on First Amendment activity. The FBI does not investigate, collect, or maintain information on U.S. persons solely for the purpose of monitoring activities protected by the First Amendment. Moreover, the FBI will "maintain a record describing how an individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity." Privacy Act of 1974, section (e)(3).

(U//LES) OIGIG Appendix 1 further restricts the collection of information regarding First Amendment protected activity: the FBI may only collect information relating to the exercise of a First Amendment right if (1) the collection is logically related to an authorized investigative purpose, (2) the collection does not materially interfere with the ability of an individual or a group to engage in the exercise of constitutionally protected rights, and (3) the method of collection is the least intrusive alternative that is reasonable, based upon the circumstances of the investigation. Respondents are reminded that information including tweets, Facebook posts, and "likes" are First Amendment protected speech and "following" and "friending" on social media may be an exercise of the First Amendment freedom of association. The collection of such information therefore requires human review to determine it is pertinent to and within the scope of an authorized law enforcement activity.

(U//LES) Within this legal and policy framework, the information requested from field offices in this communication is intended to provide timely information to appropriate law enforcement and/or public safety personnel who are authorized to protect facilities, personnel, and the public from imminent threats of violent and/or criminal activity. This document is meant as a summary of significant investigation highlights and RPTI as a representative review of ongoing investigations. The information contained in this communication is RPTI to be incorporated into any formal or informal written documents for further dissemination without the authorization of the FBI Headquarters, SIAC. Unauthorized use of this information may jeopardize sensitive national security and/or criminal investigations, result in the possible identification and/or physical harm of human sources, or result in law enforcement into the FBI's interest of intended targets.

(U//LES) This communication is intended to provide timely information to appropriate law enforcement and/or public safety personnel who are authorized to protect facilities, personnel, and the public from imminent threats of violent and/or criminal activity. It is related to and within the scope of an authorized law enforcement investigation or investigative activity. Under FBI policy and federal law, no investigative activity may be based solely on First Amendment activity. The FBI does not investigate, collect, or maintain information on U.S. persons solely for the purpose of monitoring activities protected by the First Amendment.

The Seattle Mayor's office continues to negotiate with the CHOP leaders to dismantle the area and disperse; however, the attempted barrier removal on 26 June prompted a swell in the number of protesters from a couple dozen to more than 100. SE maintains continuing contact with Seattle Police Department for any situational updates.

II. (U) CURRENT AND UPCOMING FLASHPOINTS AND RESPONSE

(U) Possible catalysts in AOR to help understand possible flashpoints for upcoming violence, including anniversaries of past events, ongoing legal cases of past incidents where milestones in process could result in community reaction, recent events during criminal activity associated with protests (injuries, etc.) that could spark local responses.

(U) Landmarks

(U//~~FOUO~~)

Most sites are readily accessible and relatively soft targets.

b7E -4

- (U//~~FOUO~~) As of 28 June, there is a consistent presence of demonstrators and other non-violent protest activity - comprising several hundred people daily - near the White House and Lafayette Square, Washington, DC.

(U) Law Enforcement Activity and Judicial Decisions

(U//~~FOUO~~) Pending judicial decisions, as well as law enforcement arrests of individuals engaged in violent protests, will likely remain a flashpoint for violent and criminal activity.

- (U//~~FOUO~~) On 28 June, around 2130, protesters surrounded a marked Detroit police SUV in Michigan, reportedly smashed out the rear window, and climbed onto the hood of the vehicle. According to reports, the officer inside the vehicle turned on the overhead lights and accelerated through the crowd, causing two protesters who had climbed onto the hood to be thrown to the ground.
- (U//~~FOUO~~) The Washoe County District Attorney is anticipated to release a video on 29 or 30 June of a Sparks Police Department officer-involved shooting in Nevada that could be controversial. Casino partners plan to increase security in anticipation of violence.

(U) Scheduled Protests

- (U) As of 29 June, [REDACTED]
- (U) As of 27 June, hundreds of protesters remain camped out near NY City Hall are advocating for a \$1 billion dollar cut to the NYPD's budget. [REDACTED] protest location is less than 0.5 miles away from the Jacob K. Javits Federal Building (26 Federal Plaza) and US Court of International Trade.

b7E -4

(U) Positive Mitigation Factors/trends - appearing to have a positive impact on tamping down the violence in an AOR including local curfews, National Guard presence, and enhanced police presence.

- * (U) New Legislation.
- * (U//~~FOUO~~) Community Leader Engagement.
