FBI FOIPA Addendum

As referenced in our letter responding to your Freedom of Information/Privacy Acts (FOIPA) request, the FBI FOIPA Addendum provides information applicable to your request. Part 1 of the Addendum includes standard responses that apply to all requests. Part 2 includes standard responses that apply to requests for records about individuals to the extent your request seeks the listed information. Part 3 includes general information about FBI records, searches, and programs.

Part 1: The standard responses below apply to all requests:

- (i) **5 U.S.C. § 552(c).** Congress excluded three categories of law enforcement and national security records from the requirements of the FOIPA [5 U.S.C. § 552(c)]. FBI responses are limited to those records subject to the requirements of the FOIPA. Additional information about the FBI and the FOIPA can be found on the www.fbi.gov/foia website.
- (ii) **Intelligence Records.** To the extent your request seeks records of intelligence sources, methods, or activities, the FBI can neither confirm nor deny the existence of records pursuant to FOIA exemptions (b)(1), (b)(3), and as applicable to requests for records about individuals, PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(1), (b)(3), and (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records is itself a classified fact protected by FOIA exemption (b)(1) and/or would reveal intelligence sources, methods, or activities protected by exemption (b)(3) [50 USC § 3024(i)(1)]. This is a standard response and should not be read to indicate that any such records do or do not exist.

Part 2: The standard responses below apply to all requests for records on individuals:

- (i) **Requests for Records about any Individual—Watch Lists.** The FBI can neither confirm nor deny the existence of any individual's name on a watch list pursuant to FOIA exemption (b)(7)(E) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(7)(E), (j)(2)]. This is a standard response and should not be read to indicate that watch list records do or do not exist.
- (ii) **Requests for Records about any Individual—Witness Security Program Records.** The FBI can neither confirm nor deny the existence of records which could identify any participant in the Witness Security Program pursuant to FOIA exemption (b)(3) and PA exemption (j)(2) [5 U.S.C. §§ 552/552a (b)(3), 18 U.S.C. 3521, and (j)(2)]. This is a standard response and should not be read to indicate that such records do or do not exist.
- (iii) **Requests for Confidential Informant Records.** The FBI can neither confirm nor deny the existence of confidential informant records pursuant to FOIA exemptions (b)(7)(D), (b)(7)(E), and (b)(7)(F) [5 U.S.C. §§ 552 (b)(7)(D), (b)(7)(E), and (b)(7)(F)] and Privacy Act exemption (j)(2) [5 U.S.C. § 552a (j)(2)]. The mere acknowledgment of the existence or nonexistence of such records would reveal confidential informant identities and information, expose law enforcement techniques, and endanger the life or physical safety of individuals. This is a standard response and should not be read to indicate that such records do or do not exist.

Part 3: General Information:

- (i) **Record Searches and Standard Search Policy.** The Record/Information Dissemination Section (RIDS) searches for reasonably described records by searching systems, such as the Central Records System (CRS), or locations where responsive records would reasonably be found. The CRS is an extensive system of records consisting of applicant, investigative, intelligence, personnel, administrative, and general files compiled by the FBI per its law enforcement, intelligence, and administrative functions. The CRS spans the entire FBI organization, comprising records of FBI Headquarters, FBI Field Offices, and FBI Legal Attaché Offices (Legats) worldwide; Electronic Surveillance (ELSUR) records are included in the CRS. The standard search policy is a search for main entity records in the CRS. Unless specifically requested, a standard search does not include a search for reference entity records or administrative records of previous FOIPA requests.
 - a. *Main Entity Records* – created for individuals or non-individuals who are the subjects or the focus of an investigation
 - b. *Reference Entity Records*- created for individuals or non-individuals who are associated with a case but are not known subjects or the focus of an investigation
- (ii) **FBI Records.** Founded in 1908, the FBI carries out a dual law enforcement and national security mission. As part of this dual mission, the FBI creates and maintains records on various subjects; however, the FBI does not maintain records on every person, subject, or entity.
- (iii) **Foreseeable Harm Standard.** As amended in 2016, the Freedom of Information Act provides that a federal agency may withhold responsive records only if: (1) the agency reasonably foresees that disclosure would harm an interest protected by one of the nine exemptions that FOIA enumerates, or (2) disclosure is prohibited by law (5 United States Code, Section 552(a)(8)(A)(i)). The FBI considers this foreseeable harm standard in the processing of its requests.
- (iv) **Requests for Criminal History Records or Rap Sheets.** The Criminal Justice Information Services (CJIS) Division provides Identity History Summary Checks – often referred to as a criminal history record or rap sheet. These criminal history records are not the same as material in an investigative “FBI file.” An Identity History Summary Check is a listing of information taken from fingerprint cards and documents submitted to the FBI in connection with arrests, federal employment, naturalization, or military service. For a fee, individuals can request a copy of their Identity History Summary Check. Forms and directions can be accessed at www.fbi.gov/about-us/cjis/identity-history-summary-checks. Additionally, requests can be submitted electronically at www.edo.cjis.gov. For additional information, please contact CJIS directly at (304) 625-5590.

Ok great, thanks for the heads up! DOJ told us this would be dropping soon. So no press conference from the sound of it?

Let me know if you need any insight on this, I've been in on it behind on the scenes and have a pretty good beat on it.

seems straightforward. I don't think a press conference since we already had one today with them. I was slightly irritated only because I asked DOJ OPA to give us a heads up on the matter and they did not!

seems straightforward. I don't think a press conference since we already had one today with them. I was slightly irritated only because I asked DOJ OPA to give us a heads up on the matter and they did not!

Thank you for taking the time to connect this morning regarding ITADD's [REDACTED] EOY funding request for the BWC [REDACTED] which we originally projected as an FY22 expense. My notes for your review are below.

[REDACTED]

Funding Timeline

- While it was originally anticipated that ITADD's [REDACTED] requirement for body worn camera [REDACTED] funding would not be required until FY 2022, an FY 2021 end-of-year funding path would minimize data storage risks for the organization [REDACTED]

b6 -1
b7C -1
b7E -7,30

[REDACTED] could be used as an interim solution if the tandem launch date is not feasible, switching the storage locations could open the FBI up to questions regarding the integrity of the storage. OCG could be asked to expand on this potential risk if necessary.

Are there any mitigating strategies for the risk detailed above that could be considered?

Thank you

As everyone is aware, we've been given 30 days to draft a SA BWC policy and submit it to DOJ. I've attached a draft version of the memo giving those directions for those who have not seen it yet.

I'd like to hold a brief call to organize our efforts. Between the draft Interim DOJ Policy document and our own work on internal SOPs, I believe we have a significant amount of the necessary material already drafted to form the basis of our submission. Our discussion will be to determine who will handle what aspects and to develop a rough timeline so that milestones are hit in a timely manner.

Thanks,
Tim

Thank you all for your help with this. Just another ridiculous deadline with the BWC project! We found out today at 12:30 that the DD wanted this by 5 pm. Thank you again for surging support behind this project as necessary.

I went with our best understanding of the current situation, which is that FY22 and beyond are going to require funds from DOJ/Congress. Here's the link:

It's already to the EADs at this point, but if there is something glaringly incorrect, we can edit and push it up again.

I read the writesp more closely this morning. I noticed that titles in Appendix C have an error in them.

The second title has [redacted] Signing through civil emails. I think I figured out what that should really be.

[REDACTED] asked me to verify the cost requirement for the purchase of [REDACTED] cameras in FY21. The current estimate of [REDACTED] should not change. Hey [REDACTED]

Thanks so much for your support on this. I can't tell you how helpful it is at this stage where I'm wearing many hats at once!

Here are my thoughts on the SAC email. I'll check with DAD Tim Dunham, but I think he'll want to send it himself, not from OPA. The purpose will be to get high-level input (not non-constructive comments or proofreading... haha) from SACs on the policy, and the draft policy will be attached.

Key points:

- DAG Memo released last week, we are drafting FBI policy
- Clarifying that BWC usage will be very narrow in scope
- This is only going to be good for us (I like [REDACTED] thoughts on this)
- Implementation will start in NY and MW in October 2021
- NY and MW volunteered
- Full implementation is still TBD, but will be slow and phased over 2-3 years

I hope that is helpful. Please let me know if I can clarify anything. Thank you!

Good morning [REDACTED]

Quick question r/e [REDACTED] for BWC. Could you help [REDACTED] and I understand which date the cameras would physically be deployed to Minneapolis and NYC for their use? Would the cameras be delivered after the req is entered or after the purchase takes place? How long do you anticipate for shipping/manufacturing?

Much of the timing for other cost projections are centered around this "deployment date" question. Thanks in advance for your help here!

The timeline that I drafted based on our last conversation is below and << OLE Object: Picture (Device Independent Bitmap) >> linked here.

On body worn cameras, I appreciate your support in bringing it up [REDACTED] when it's appropriate. Nick and [REDACTED] have been locked in with this every step of the way and have been incredibly engaged and supportive. SC Matt Feinberg and I are discussing gathering some TDYs, but with the finance/procurement teams tasked to this so efficiently, we can cross a finance person off our list of needs.

While I'm officially tagged to CID, you can certainly consider me yours for anything BWC related. My perspective in approaching this as an enterprise wide project means that keeping everybody on the same sheet of music is crucial during this stage. Also, if you need any broader update on the project, I'd be happy to do so.

Thanks a lot! I'm sure this isn't the last you'll be hearing from me in the next few months.

Stephen,

Quick question on the last bullet. We want to make sure we have the right language. We are pretty sure what needs to be said, but could use a triple check on the wording. [redacted] is drafting answers for 3 and 4 and will post it to the group.

Hi,

Finally taking time to look at this doc and it's actually very interesting. I wonder if OTD could leverage this as an example when drafting their BWC requirements?

[REDACTED] is a great standard for how procurement is successfully managed essentially because so much of it has to be ordered that they have streamlined the process to make it as smooth as possible. I can go into more details in a conversation, but just wanted to make sure you have this interesting resource!

Subject: DOJ OIG Releases Report on the Department of Justice Policy on Body Worn Cameras for Law Enforcement Officers

Good morning,

DOJ OIG Releases Report on Audit of the Department of Justice Policy on Body Worn Cameras

Department of Justice (DOJ) Inspector General Michael E. Horowitz announced today the release of a [report examining the Department of Justice \(DOJ\) policy on body worn cameras for law enforcement officers \(LEOs\)](#). Our review period covered October 2019 through January 2021.

In the past decade, DOJ has studied, supported, and promoted the use of body worn cameras through its Office of Justice Programs, which has provided over \$115 million to state, local, and tribal law enforcement agencies to create or enhance their body worn cameras programs. However, the DOJ Office of the Inspector General (OIG) found that when our audit commenced in June 2020, the DOJ did not have a body worn camera program for DOJ law enforcement officers (LEOs) and the Bureau of Alcohol, Tobacco, Firearms, and Explosives; Drug Enforcement Administration; FBI; and U.S. Marshals Service (the Components) were generally unprepared to implement body worn camera programs. During our audit, the DOJ took several important steps to begin developing and implementing body worn camera programs.

The specific findings of our audit include:

- Until October 2019, DOJ typically did not allow the use of body worn cameras on its operations, including task force operations on which partner LEOs had body worn camera programs. In November 2019, DOJ initiated a task force officer body worn camera pilot program that proved successful.
- In October 2020, DOJ finalized a formal task force officer body worn cameras policy, officially authorizing task force officers across the country to utilize body worn cameras on certain DOJ operations. Still, DOJ LEOs generally did not own or use body worn cameras.
- On June 7, 2021, the Deputy Attorney General issued a memorandum directing the Components to develop body worn camera policies and submit those policies for review within 30 days. The DOJ OIG has not audited these policies as policy development is ongoing.

As work continues to progress, DOJ should consider the three primary areas of concern we identified during our work:

- **Policies for body worn camera use.** As DOJ drafts its interim body worn camera policy, it should employ lessons learned from its task force officer pilot program, and consider other areas such as:
 1. Body worn camera activation and deactivation requirements;
 2. Video retention requirements;
 3. Privacy concerns, including but not limited to recording members of the public, recording inside a residence, recording inside a medical facility, or recording minors, and
 4. The development of policy governing the release of body worn camera footage to the public.
- **Operational costs of a body worn camera program.** As DOJ reassesses its lack of a body worn camera program for DOJ LEOs, it should identify the type of operations for which body worn cameras should be required for DOJ LEOs on DOJ operations, and using that determination, develop a forecast of costs associated with equipment purchases, video storage, and other resources, such as staffing. As the costs of a body worn camera program are significant, DOJ can use this assessment to request appropriate funding from Congress.
- **Contracting options for the purchase of body worn camera equipment and video management systems.** As DOJ works to research body worn camera programs, we recommend that DOJ coordinate with the Components, and any other DOJ agencies to whom a body worn camera program may apply, to assess the suitability of a single contract involving either multiple DOJ components or multiple federal agencies so as to leverage the purchasing power of the federal government to ensure maximum cost savings.

Today's report makes 3 recommendations to assist as DOJ develops and implements a body worn camera program. DOJ agreed with all the recommendations.

Report: Today's report and an interactive timeline of events is available on the OIG's website at the following link: <https://oig.justice.gov/reports/audit-department-justice-policy-body-worn-cameras>

Video: To accompany today's report, the OIG has released a two-minute video of the Inspector General discussing the report's findings. Good Afternoon,

Many thanks to everyone for your help with submitting the narratives for Body Worn Cameras FY 23 Enhancement request. Our next action is to set a date next week (7/8-7/9) for our internal pre-brief. The following week we will have the briefings to DOJ (7/12-7/16).

For unclassified briefings, we will setup Teams meetings (DOJ has had trouble accessing our UNet Skype, so we will do conference calls instead).

Good afternoon,

I apologize, this tasking fell off my radar given the DOJ tasks we were given last Thursday as well.

[redacted]

If you could please review the attachment SWC_FY_2023_Enhancement and let me know what changes you would like to make to the personnel and non-personnel costs, as well as the appropriate PSPs as soon as possible.

I am happy to submit this through our Budget Unit, but it may make more sense to have this submitted through OTD's Budget Unit – please let me know what you would prefer. The FY23 Enhancement Narrative must also be completed this week.

All,

Over the past several weeks, FFD has met and worked with the ADD and EADs to prioritize the enhancement requests which will be included in our FY2023 Spring Planning Estimate (SPE) submission. Through these discussions, the ADD supported moving forward with [REDACTED] While this figure still needs to be approved by the Director, we are moving forward to stay on schedule and will quickly communicate any changes.

We are asking each division to complete two necessary templates for each enhancement initiative outlining the detailed break-down, write-ups, and justifications for the SPE submission. The first template (Excel file) will provide detailed cost, position, and P/SP information. The second template (Word file) will provide the necessary narrative

descriptions. These templates should be reviewed and finalized by division executive management prior to submission back to FFD.

Instructions for completion are as follows:

- **For the Excel Data Templates:** please find your division's specific Excel template saved here: Divisions Enhancement Templates. Within each template, the enhancements and initiatives are summarized in the top table with the approved allocations for each. Please do not make changes or edits to this table. In the bottom two sections, please fill in the highlighted cells to provide necessary personnel and non-personnel detail (e.g., positions, P/SP, SOC). As you complete, the funding in the summary table will auto-populate to show whether you are under or over your division allocation. Cross-division initiatives are noted with an asterisk (*) and have been assigned a lead division; please coordinate with all partner divisions on detail for these submissions.
- **For the Word Narrative Templates:** please use the attached Word template to provide narrative write-ups and justifications for each initiative within your division. For divisions with multiple initiatives, please submit a separate Word document for each initiative using this template. There are specific instructions included in the template, and the positions and dollar amounts should match what is provided in the Excel template. For cross-division initiatives, the lead division should please coordinate with all partner divisions and then submit ONE template.

Given the very tight turnaround we have to prepare our finalized submission to DOJ.

Thank you for your partnership on this.

Best,
